VILLAGES—Of the first class include all having less than 5,000 and more than 3,000 inhabitants; the second class includes all having less than 3,000 and more than 200 inhabitants.

HAMLETS—According to section 1550 of the Revised Statutes all existing corporations organized as "incorporated villages for special "purposes shall be hamlets until advanced to villages."

It is impossible to make any satisfactory generalization with regard to the bonding power the Legislature has granted these municipalities. There are a few sections of the Revised Statutes authorizing bond issues which have a universal application, such as the provision granting power to issue bonds in anticipation of special assessments, but most of the laws for that purpose cover only one class of cities, and many of them are so worded as to apply only to one city, and granting an issue of bonds for a specific purpose. No general laws limiting the powers of municipalities to incur indebtedness have been passed, although section 6, article 13, appears to require it. And yet is it not a question whether that section calls for any legislation of a general nature except a general law "for the *organization* of cities, &c."?

CINCINNATI.—{GUSTAV TAFEL, Mayor. H. P. BOYDEN, Auditor.

Cincinnati is situated in Hamilton County.

In 1895 the villages of Avondale, Clifton, Linwood, Riverside and Westwood were annexed to Cincinnati and their indebtedness was assumed by that city. The city Sinking Fund Trustees entered into an agreement with a New York firm in 1898 looking to the refunding of the Cincinnati Southern Railway bonds. This agreement was set aside by Judge Spiegel on Aug. 18, 1898, and upon appeal the State Supreme Court affirmed that ruling. See Chronicle, V. 67, p. 189 and 442; V. 68, p. 1143. The Board of Trustees of the Cincinnati Southern Railway has also twice advertised for proposals to refund these bonds, first on Dec. 20, 1898 (see Chronicle, Nov. 26, 1898, p. 1122), all bids then received being rejected. They again called for proposals July 19, 1899 (V. 68, p. 1236), but only a small portion had been offered for extension when litigation again blocked further refunding operations. This suit was dismissed on Sept. 7, 1899, by Judge Davis, of the Common Pleas Court, and the case is now (Sept. 26, 1899,) pending in the Circuit Court on appeal

There were outstanding on Jan. 1, 1899, street bonds to the amount of $1,478,834·55 payable by special assessment and not included in the above statement of total debt. Of this amount bonds to the amount of $1,242,937·67, together with $92,500 bonds of the Board of Education, were held by the sinking fund, these, and the cash on hand amounting to $680,730·17, being applicable to the payment of the general bonds.

CITY PROPERTY.—The city owns the Cincinnati Southern Railroad. The rental received for the road is $1,090,000 till 1901 and then $1,250,000 till 1906, when lease expires. A proposition to sell the road to the Cincinnati Hamilton & Dayton Railway and the Southern Railway was voted on August 3, 1896, and defeated—V. 63, p. 153, 228. The State Legislature in 1898 passed a bill permitting an election to vote to extend the lease beyond 1906 (V. 66, p. 900), and it is expected that a proposition will be submitted at the November, 1899, election. The water-works pay the interest and sinking fund on all water bonds.

ASSESSED VALUATION.—The following table shows the total valuation of real and personal property and the State tax rate (per $1,000) *for the general fund* for the years indicated.

Years.	Valuation.	State tax.	Years.	Valuation.	State tax
1899	$1,343,099,379	$0·90	1885	793,526,079	$1·20
1898	1,285.965,056	0·90	1880	$728,944,231	1·20
1897	1,292,641,237	0·90	1875	897,739,783	1·50
1895	1,286,050,531	0·90	1870	662,283,178	1·50
1894	1,295,106,415	1·00	1865	567,381,553	2·00
1893	1,302,310,250	1·00	1860	455,011,378	1·50
1891	1,255,256,038	1·20	1855	301,858,474	2·00
1889	843,483,466	1·20	1850	138,362,085	2·50

The total tax rate (per $1,000) for 1899 was $2·96⅔, including Benevolent Institution tax $0·50, school tax $1·10, State debt sinking fund tax $0·30, and Educational Institution tax $0·16⅔, in addition to the general fund tax of $0·90 as given above.

DEBT LIMITATION.—In the present Constitution of Indiana, which went into effect November 1, 1851, superseding the Constitution adopted in 1816, there are explicit provisions limiting the power of both the State and its municipalities to contract debt.

FIRST, as to the State, Section 5 of article 10 provides that no debt except to meet casual deficits in revenue, to pay interest, to repel invasion &c. can be contracted. The section in full is subjoined.

CREATION OF DEBT FORBIDDEN.—No law shall authorize any debt to be contracted on behalf of the State except in the following cases: To meet casual deficits in the revenue; to pay interest on the State debt; to repel invasion, suppress insurrection, or, if hostilities be threatened, provide for the public defense.

In the sixth section of the same article the last clause prohibits the assumption by the State of the debts of any municipality or corporation. The clause referred to reads as follows.

Nor shall the General Assembly ever on behalf of the State assume the debts of any county, city, town or township, nor of any corporation whatever.

SECOND, as to municipalities, the provision contained in the Constitution seems to be equally clear and emphatic, and, as will be found, fixes the limit at 2 per cent of the valuation. It is article 13 of that instrument which relates to this subject, and we give the article in full below.

LIMITED—EXCESS VOID.—No political or municipal corporation in this State shall ever become indebted in any manner or for any purpose to an amount in the aggregate exceeding two per centum on the valuation of the taxable property within such corporation, to be ascertained by the last assessment for State and County taxes previous to the incurring of such indebtedness; and all bonds or obligations in excess of such amount given by such corporation shall be void; *Provided*, That in time of war, foreign invasion, or other great public calamity, on petition of a majority of the property owners in number and value, within the limits of such corporation, the public authorities in their discretion may incur obligations necessary for the public protection and defense to such an amount as may be requested in such petition.

It should be said in connection with the above that several laws have been enacted since the foregoing constitutional limit was adopted (March 14 1881), and bonds have been issued by counties thereunder *beyond the 2 per cent limit*, for the construction of "free gravel, stone or other macadamized roads." Several such laws were passed at the 1899 session of the Legislature, all of which we now have in our possession. We wrote the Attorney General of Indiana in March, 1899, for his opinion as to the constitutionality of these road laws. Under date of April 22, 1899, he replied, stating that in the case of Strieb vs Cox, Treas., 111 Ind., the Supreme Court of Indiana held that gravel road bonds are not properly indebtedness of the county—hence do not come within the inhibition of Section 13 of the Constitution.

THIRD, counties (but no other kind of municipality) are prohibited from subscribing for any stock in a corporation unless paid for at time of such subscription. The section which covers this subject is section 6 of article 10, and is as follows.

Counties cannot take stock. No county shall subscribe for stock in any incorporated company unless the same be paid for at the time of such subscription; nor shall any county loan its credit to any incorporated company, nor borrow money for the purpose of taking stock in any such company; nor shall the General Assembly ever on behalf of the State assume the debts of any county, city, town or township, nor of any corporation whatever.

The prohibition which this section contains applies, as already stated, only to counties. Consequently the Legislature was at liberty to authorize cities to subscribe to the stock of railroads, as it did by a general law passed in 1867 granting the power to subscribe to the stock of any railroad running into or through any city or near its corporate limits. Other laws of a somewhat similar character have been passed at other dates. We notice one law too which authorizes counties bordering on the State line to subscribe for railroad stock and to issue bonds for the purpose of paying the subscription. In view of the above section this grant of power extended to counties would seem to be at least questionable.

COUNTIES are apparently restricted by statute to a lower than the Constitutional limit of 2 per cent in the matter of creating certain kinds of debt. For instance, Section 5749 of the Revised Statutes authorizes any county to issue bonds when necessary to construct, complete or repair court house, jail or other county buildings, or to fund existing debt; in those cases county commissioners may borrow for that purpose not exceeding 1 per cent on assessed valuation and issue bonds therefor.

Limit of one per cent may be exceeded in counties for funding purposes in certain cases where the aggregate indebtedness in 1879 exceeded one per cent (see Revised Statutes, Section 816); also for temporary loans (see Revised Statutes, Section 5818).

Also (if the laws that have been passed are constitutional), the limit *of 2 per cent* may be exceeded for the purpose of making gravel roads (see above), the Supreme Court having decided that gravel road bonds are not properly an indebtedness of the county.

In addition to the foregoing, general statutes have been passed by the Legislature granting general powers to cities and towns of fifteen thousand inhabitants or over to issue bonds for legitimate corporate purposes, subject, however, to the Constitutional limit of 2 per cent on valuation. But we have not the space to set out here the details, or the details of the other legislation applicable to cities of larger and smaller population, and covering specific purposes, such as water works, &c.

POPULATION OF STATE.—The population of Indiana has been as follows in the years named.

1897	2 867.036	1860	1,350,428	1830	343,031
1890	2,192,404	1850	988,416	1820	147,178
1880	1,978,301	1840	685,866	1810	24,520
1870	1,680,637				

Between 1860 and 1870 the increase was 330,209, or 24·45 per cent, between 1870 and 1880 297,664, or 17·71 per cent, and between 1880, and 1890 214,103, or 10·82 per cent.

Legislature meets biennially in odd years on the Wednesday after the first Monday in January, and there is no limit to length of sessions.

HISTORY OF DEBT.—The historical details of the State debt of Illinois from 1829 to 1870, when the debt was all paid off, will be found in the STATE AND CITY SUPPLEMENT of April 1894, page 91.

BONDED DEBT.—This State had on January 1, 1899, no bonded debt, except $18,500 bonds which have ceased to draw interest, but have not yet been surrendered for payment.

ASSESSED VALUATION.—The total assessed valuation has been as follows in the years named. The tax rate for 1898 was $5·60.

Under a law passed Feb. 25, 1898, there will be a general assessment of real estate but once in every four years instead of annually; personal property will be listed every year. The law also provides that property shall be appraised at full value but assessed at only one-fifth of such value.

DEBT LIMITATION.—No State has developed a greater repugnance to the creating of debt than Illinois, if we may judge from the provisions of its present Constitution. We say developed, because this antagonism has apparently been progressive. Nothing of it is to be found in the Constitution of 1818. The Constitution of 1848 contains no reference to municipalities, but has in it stringent restrictions limiting to $50,000 the power of the Legislature to create State debt, except in case of war, invasion, etc., unless the law proposing the issue of bonds is submitted to a vote of the people. But turning to the Constitution of 1870 we find the whole subject of debt-making most thoroughly considered and its basis settled.

FIRST, as to the State, the provisions are not very unlike the provisions of the Constitution of 1848, except that as to the limit for casual deficits and failures of revenue, the aggregate which can be created is very properly raised to $250,000. But with that exception and with the further exception for the purpose of repelling invasion etc. no debt can be contracted unless the law is submitted to a vote of the people at a general election, which law must contain a provision for the payment of interest as it accrues, and previous notice of the election be given by publication for three months prior to such election. These last two restrictions as to interest and notice of election are only found in the 1870 Constitution. The sections which cover these matters are as follows; we omit the first portion of Section 18, which relates only to appropriations and payment of appropriations out of funds belonging to the State:

SECTION 18. * * * * * *Provided*, the State may, to meet casual deficits or failures in revenues, contract debts never to exceed in the aggregate $250,000, and moneys thus borrowed shall be applied to the purpose for which they were obtained, or to pay the debt thus created, and to no other purpose; and no other debt except for the purpose of repelling invasion, suppressing insurrection or defending the State in war (for payment of which the faith of the State shall be pledged), shall be contracted, unless the law authorizing the same shall at a general election have been submitted to the people, and have received a majority of the votes cast for members of the General Assembly at such election. The General Assembly shall provide for the publication of said law for three months at least before the vote of the people shall be taken upon the same; and provision shall be made at the time for the payment of the interest annually as it shall accrue, by a tax levied for the purpose or from other sources of revenue; which law providing for the payment of such interest by such tax, shall be irrepealable until such debt be paid: *And provided further*, that the law levying the tax shall be submitted to the people with the law authorizing the debt to be contracted.

SECTION 20. The State shall never pay assume or become responsible for the debts or liabilities of, or in any manner give, loan, or extend its credit to or in aid of any public or other corporation, association or individual.

Nothing needs to be added in explanation of the foregoing. The provisions seem to be explicit and to guard most wisely the creation of State debt.

SECOND, municipal indebtedness is regulated only in the Constitution of 1870. In that instrument the subject is dealt with in all its phases. *First* is a provision in Article 8, Section 3, forbidding the General Assembly and every municipality from making any appropriation in aid of any sectarian purpose. *Second* is a "separate section" forbidding any such municipality from becoming a subscriber to the stock of any railroad, &c., or to loan its credit. *Third* is the board and general provision, Section 12, Article 9, which limits the indebtedness of all municipalities to 5 per cent "on the value of the taxable property therein," &c. We give these sections below:

ARTICLE 8. Section 3. Neither the General Assembly nor any county city, town, township, school district, or other public corporation, shall ever make any appropriation, or pay from any public fund whatever, anything in aid of any church or sectarian purpose, or to help support or sustain any school, academy, seminary, college, university, or other literary or scientific institution controlled by any church or sectarian denomination whatever; nor shall any grant or donation of land, money or other personal property ever be made by the State, or any such public corporation, to any church or for any sectarian purpose.

ARTICLE 9, Section 12. No county, city, township, school district or other municipal corporation shall be allowed to become indebted in any manner or for any purpose, to an amount, including existing indebtedness, in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes, previous to the incurring of such indebtedness. Any county, city, school district or other municipal corporation incurring any indebtedness as aforesaid shall before, or at the time of doing so, provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same. This section shall not be construed to prevent any county, city, township, school district, or other municipal corporation, from issuing their bonds in compliance with any vote of the people which may have been had prior to the adoption of this Constitution in pursuance of any law providing therefor.

SEPARATE Sections. [Municipal subscriptions to railroads etc.] No county, city, town, township or other municipality shall ever become subscriber to the capital stock of any railroad or private corporation, or make donation to or loan its credit in aid of such corporation, *provided, however*, that the adoption of this article shall not be construed as affecting the right of any such municipality to make such subscriptions where the same have been authorized, under existing laws, by a vote of the people of such municipalities prior to such adoption.

The foregoing limitation to 5 per cent is general, as will be seen—that is, it applies to all municipalities. With this limitation preserved the Legislature has passed general laws authorizing the city council in cities and the board of trustees in villages to issue bonds for corporate purposes, for refunding and consolidating debt, for water works, etc.; and the county board of any county has been authorized by general statute to issue, when it deems it necessary, county bonds, after submitting the matter to the legal voters of the county at a general election, at which a majority vote is required as a prerequisite of the issue. In all these general laws, however, it is provided, according to Section 12, Article 9, of the Constitution, that in no case must the aggregate indebtedness exceed five per cent of the taxable property therein.

IMPROVEMENT BONDS.—There is a kind of improvement bond authorized in some cases which is made a special lien on the land benefitted and to which the 5 per cent limit has no reference. We refer to cases which come under the law entitled "To divide cities and villages subject "to overflow into improvement districts." This statute provides that any such city or village or part thereof may be laid off into an improvement district for the purpose of draining, raising the grade of the streets and improving the district; that after the cost for the work has been ascertained and been assessed, the assessment may be paid in instalments or otherwise and such city or village may issue bonds sufficient to pay the assessment. In that case the bonds are a lien on the lots, blocks or parts thereof which shall be designated therein; but before the issue the owner of the lots, etc., to be charged must endorse upon the back of such bond his consent, under seal, in substance as follows: "I hereby indorse the within bond "and consent that the lot or lots or parts thereof therein designated "shall become liable for the interest and principal therein named and "the same shall be a lien upon said property from this date until paid "off and discharged." The bond when executed by the city or village and so endorsed by the owner shall be recorded in the recorder's office in the county, and such record shall be a notice of the lien created to the same extent as the record of mortgages is a notice.

We have room to give only this very brief and imperfect outline of this statute. The whole law will be found in the Revised Statutes of Illinois, the 1889 edition, page 303. To understand the real cause and occasion for all this machinery, one should study also the previous statute (page 99, &c.) which authorizes cities, &c., to protect themselves from overflow and inundation and control private levees, &c. After having read the two laws it will be found that the district improvement bond has been devised as a relief measure, and that it affords a wise and ingenious method for helping those in more moderate circumstances who have been taxed for a very necessary improvement to pay the tax by instalments.

Legislature meets biennially in odd years the first Wednesday in January, and there is no limit to the length of sessions, excepting special sessions, in which the pay of members is limited to 20 days.

HISTORY OF DEBT.—The historical details of Michigan's State debt will be found in the STATE AND CITY SUPPLEMENT of April, 1894, page 98. In 1864 the State Treasurer reported the funded debt at $3,880,399, and $1,450,472 additional "Trust fund debt." The bonded debt July 1, 1899, consisted of $500,000 war loan bonds (1898) and $19,000 of "past-due part paid $5,000,000 loan bonds" adjustable at $578·57 per $1,000, amounting to $10,992·83, which have never been presented for payment and bear no interest. The "Trust fund debt" on the same date amounted to $6,120,003 56.

EQUALIZED VALUATION.—Since 1856 the equalized valuation has been determined only once in five years. The following shows the equalized valuation and tax rate for State purposes for every fifth year since 1846.

Year.	Equalized Val.	Tax Rate.	Year.	Equalized Val.	Tax Rate.
1896 ....$1,105,100,000		$1·41	1866	$307,965,843	$1·889

1876	630,000,000	1·144	1846	29,369,065	2·50
1871	630,000,000	1·201			

In 1896 the *assessed valuation* of real estate was $805,553,976; personal property, $140,455,965; total valuation, $946,009,941.

DEBT LIMITATION.—Michigan, as noted in our history of the State's debt, started its career as a State in January 1837, when the whole land was buoyant over its inflated enterprises carried on at public expense. So to be abreast with the times, instead of putting any limit on the power of the State to create debt, it put into its Constitution a notice to the Legislature to go to work at once and make provision for "ascertaining the proper objects of improvement in relation to roads, "canals and navigable waters," that the money might be raised and these improvements might be prosecuted with as little delay as possible.

That was the spirit which ruled and the condition which prevailed in 1837. In 1850 Michigan made and adopted another Constitution. During the years which intervened the people had gained a wide experience and had evidently profited by it. Hence we find them at the latter date

showing a purpose to make an instrument in its financial features about as dissimilar from the one it was to supplant as it could well be. Nothing will illustrate this change in spirit and purpose more clearly than the following limitations respecting the creation of State indebtedness which were inserted. These sections are all found in article 14 of the 1850 Constitution. which Constitution is still in force.

SECTION 3. The State may contract debts to meet deficits in revenue. Such debts shall not in the aggregate at any one time exceed fifty thousand dollars. The moneys so raised shall be applied to the purposes for which they were obtained or to the payment of the debts so contracted.

SECTION 4. The State may contract debts to repel invasion, suppress insurrection or defend the State in time of war. The money arising from the contracting of such debts shall be applied to the purpose for which it was raised or to pay such debts.

SECTION 6. The credit of the State shall not be granted to or in aid of any person, association or corporation.

SECTION 7. No scrip, certificate, or other evidence of State indebtedness shall be issued except for the redemption of stock previously issued or for such debts as are expressly authorized in this Constitution.

SECTION 8. The State shall not subscribe to, or be interested in the stock of any company, association or corporation.

SECTION 9. The State shall not be a party to, or interested in, any work of internal improvement, nor engage in carrying on any such work except in the expenditure of grants to the State of land or other property.

The foregoing sections appear to cover every branch and phase of the subject; and compared with the Constitution of 1837 what a contrast they afford!

Cities and villages, however, were left by the 1850 instrument to the discretion of the Legislature in the matter of restrictions upon their borrowing power. The provision which relates to this subject is found in Article 15, Section 13, and is as follows:

SECTION 13.—The Legislature shall provide for the incorporation and organization of cities and villages, and shall restrict their powers of taxation, borrowing money, contracting debts and loaning their credit.

In the exercise of the power granted by this section the Legislature has passed general laws governing the incorporation, taxation and bonding of cities and villages. With regard to cities the chief provisions with respect to taxation and bond issues will be found in the second volume of the 1890 revision of Howell's Annotated Statutes of Michigan, Chapter 22, on "Finance and Taxation," pages 629 to 702, Sections 2693 to 2730. The sections which mainly cover these points are the following—we give the substance not the words of the section:—

Taxes, *And in what amount they can be laid,* are defined in Section 2697 to Section 2701.

Section 2697 provides that the maximum amount which the council may raise by general tax for all general purposes (except schools and school house purposes and except as otherwise provided below) shall not exceed in any one year -

In cities having a population not over 6,000 .....1¼ per cent
In cities larger than 6,000 but not over 9,000.....1½ per cent
In cities larger than 9,000 but not over 14,000.....1¾ per cent
In cities having more population than 14,000.....2 per cent

SECTION 2698 provides that the council may also raise in each street district not exceeding one fourth of one per cent.

SECTION 2699 provides that in addition to above the council may raise by special assessment in sewer and in special assessment districts for improving streets and constructing sewers (chargeable on lands in district according to frontage or benefits) not exceeding in one year 5 per cent.

SECTION 2700 provides that a tax of not more than two dollars per year may be levied upon each lot or premises drained by a private sewer or drain leading into a public sewer or drain.

SECTION 2701 provides that the council may also raise such further sum, not exceeding three mills on the dollar of assessed valuation, as may be necessary to provide an interest and sinking fund to pay funded debt.

Loans, *When allowed and amount indicated.*

SECTION 2,709. Provides that no public work shall be contracted or commenced until a tax shall have been levied to pay cost.

SECTION 2,710. Instead of levying a tax for whole amount authorized by this act in any year for the general and street district funds, the council may raise part by tax and part by loan—the aggregate of both not exceeding amount for which tax might have been levied in the year.

SECTION 2,711. Council also authorized to raise moneys by loan in anticipation of receipts from special assessments.

SECTION 2,712. If any greater amount is required for erecting public buildings, or for purchase of ground for same, or for other public improvements or purposes than can be raised by the council under the foregoing provisions, such amount may be raised by tax or loan or partly by tax and partly by loan *if authorized by a majority vote of the electors voting upon* the question at an annual city election. The amount that may be so raised in any year shall not exceed two per cent of assessed valuation.

SECTION 2,713. The proposition to raise such additional amount must be submitted by an ordinance distinctly stating the purpose of proposed expenditure, the amount proposed, and whether to be raised by tax or loan. Such ordinance shall be passed, published in one newspaper of city, and copies posted in five most public places in each ward of city, at least two weeks before the election—vote shall be by ballot.

SECTION 2,717. No loans made exceeding amounts prescribed in this act. For loans lawfully made bonds of the city may be issued bearing a legal rate of interest. Record to be kept by city clerk. When deemed necessary by council new bonds may be issued in place of former bonds falling due. Each bond shall show upon its face the class of indebtedness to which it belongs and from what fund payable.

The foregoing provisions apply to cities. The law relating to villages with reference to the same subject is so nearly of a like character as not to need reciting.

POPULATION OF STATE.—The population of Michigan has been as follows in the years named:

1894	2,241,000	1860	749,113	1830	31,639

HISTORY OF DEBT. For a brief history of the Wisconsin debt see STATE AND CITY SUPPLEMENT of April, 1895.

At present the State has no indebtedness except the trust funds, as follows:

Certificates of indebtedness,		School Fund	$1,563,700
Do	do	Normal School Fund	515,700
Do	do	University Fund	111,000
Do	do	Agricultural College Fund	60,600
Total			$2,251,000

DEBT LIMITATION.—The constitutional provisions of Wisconsin restricting debt-making are very rigorous, plain and comprehensive. Since the amendment adopted in 1874, cities &c., as well as the State, are definitely limited by that instrument. We will give the provisions first which relate to the State and after that those which have reference to cities, &c.

(1) *STATE indebtedness is confined within* very close bounds. It seems as if the framers of the Constitution must have taxed to the extreme their ingenuity for forms in which to express their determination to inhibit debt-making. The sections which cover the subject are sections 3, 4, 6, 7, 9 and 10 of Article 8. We give them in full below.

SECTION 3. *Credit of State, for what not given.* The credit of the State shall never be given or loaned in aid of any individual, association or corporation.

SECTION 4. *Contracting debts.* The State shall never contract any public debt, except in the cases and manner herein provided.

SECTION 6. *Limitation on public debt.* For the purpose of defraying extraordinary expenditures, the State may contract public debts (but such debts shall never in the aggregate exceed one hundred thousand dollars). Every such debt shall be authorized by law, for some purpose or purposes to be distinctly specified therein; and the vote of a majority of all the members elected to each House, to be taken by yeas and nays, shall be necessary to the passage of such law; and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt, and the principal within five years from the passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation shall not be repealed, nor the taxes be postponed, or diminished until the principal and interest of such debt shall have been wholly paid.

SECTION 7. *State may borrow money, when.* The Legislature may also borrow money to repel invasion, suppress insurrection or defend the State in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was authorized, or to the repayment of the debt thereby created.

SECTION 9. *Evidences of debt.* No scrip, certificate, or other evidence of State debt, whatsoever, shall be issued, except for such debts as are authorized by the sixth and seventh sections of this article.

SECTION 10. *Internal improvements—avails of grants.* The State shall never contract any debt for works of internal improvement, or be a party in carrying on such works, but whenever grants of land or other property shall have been made to the State, especially dedicated by the grant to particular works of internal improvement, the State may carry on such particular works, and shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

(2) *CITIES, counties, towns, villages, &c.*, were unrestricted except by legislative enactment until 1874. Since that amendment was adopted *five per cent* on the value of the taxable property has been the extreme amount of debt permissible for any municipality. Not only is that the case, but, as will be seen, the municipality is required before or at the time when it incurs any indebtedness, to make provision for an annual tax sufficient to pay the interest and also sufficient to pay the principal within twenty years from the time of contracting the debt. We give below the amendment referred to in full.

Limitation of Municipal Indebtedness—Adding to Section 3, Article 11, the words:

No county, city, town, village, school district, or other municipal corporation, shall be allowed to become indebted in any manner or for any purpose, to any amount, including existing indebtedness in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness. Any county, city, town, village, school district, or other municipal corporation incurring any indebtedness, as aforesaid, shall before or at the time of doing so provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same.

On April 20, 1893, a new law passed by the Legislature of Wisconsin was approved by the Governor which gives general authority for the issuance of bonds to cities operating under special charters granted by the State, and containing a population of three thousand or more inhabitants, as follows. *This authority is of course subject to the foregoing provisions of the Constitution.*

For the erection and construction of a city hall and the purchase of a site for the same.

For the construction and extension of water works or the purchase of the same, and for constructing sewers, and for the improvement and maintenance of the same.

For the erection, construction and completion of school buildings and the purchase of school sites.

For the purchase of sites for engine houses, for fire engines and other equipments of the fire department, and for the construction of engine houses.

For the purchase of sites for police stations and for the construction if buildings thereon for the use of the police department.

For the construction of viaducts, bridges, and for repairs of the same.

For the erection and construction of library and museum buildings and the purchase of sites for the same.

For the establishment of public baths and hospitals and the purchase of sites for the same.

For the purchase of lands for public parks and improvements thereof and for the payment of purchase money and interest thereon which may be or become due for park lands already acquired or contracted for.

For permanently improving streets in such city, and for creating a fund out of which to advance the cost of repairs to sidewalks in anticipation of the collection of special assessments for such cost of repairs by the Treasurer of such city.

For the construction or purchase of electric or gas light plants for lighting streets and public buildings.

For refunding existing indebtedness.

The law further provides that bonds issued under this act shall bear interest, payable annually or semi-annually, at a rate not exceeding 6 per cent per annum; that the Common Council shall annually levy a tax upon all the taxable property sufficient to pay the annual interest thereon, and to provide a sinking fund each year equal to 5 per cent on the principal of said bonds; that no bonds shall be issued so that the amount thereof, together with all the other indebtedness of the city, shall exceed 5 per cent of the assessed valuation of the city and also that the bonds *shall show on their face the amount of indebtedness* of the city issuing the same, the annual amount of the assessment of the taxable property therein for the five years next preceding the issue, and the average amount thereof, and they shall not be sold for less than their par value and accrued interest.

No system could be devised better adapted for keeping municipal debt at a minimum than the foregoing amendment establishes.

Besides the State tax of $1·80 for 1898 there is a tax of $1·23 for school and university purposes.

DEBT LIMITATION.—Minnesota has protected the State from extravagant expenditures through restrictions which its Constitution puts on every kind of debt making. That instrument fixes the limit at $250,000 "for the purpose of defraying extraordinary expenditures;" and an amendment, ratified in 1879, extended this power to $250,000 additional "for erecting and completing buildings for the insane, a deaf-dumb and blind asylum, and State prison." Besides the foregoing, it is also provided that the State credit shall not be loaned, &c. With regard to the debt of municipalities there is but one section in the Constitution which relates to that subject, and that has reference to making railroad debt.

FIRST, as to State indebtedness, the sections which treat of the subject are in article 9, sections 5, 6, 7, 8 and 14.

SECTION 5. *(Public debt may be contracted.)* For the purpose of defraying extraordinary expenditures, the State may contract public debts, but such debts shall never, in the aggregate, exceed two hundred and fifty thousand dollars; every such debt shall be authorized by law for some single object, to be distinctly specified therein; and no such law shall take effect until it shall have been passed by the vote of two-thirds of the members of each branch of the Legislature, to be recorded by the yeas and nays on the journals of each House, respectively; and every such law shall levy a tax, annually, sufficient to pay the annual interest of such debt, and also a tax sufficient to pay the principal of such debt within ten years from the final passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation and taxes shall not be repealed, postponed, or diminished, until the principal and interest of such debt shall have been wholly paid. The State shall never contract any debts for works of internal improvement, or be a party in carrying on such works, except in cases where grants of land or other property shall have been made to the State, especially dedicated by the grant to specific purposes; and in such cases the State shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

SECTION 6.—*(Public debt how contracted.)* All debts authorized by the preceding section shall be contracted by loan on State bonds of amounts not less than five hundred dollars each, on interest, payable within ten years after the final passage of the law authorizing such debt; and such bonds shall not be sold by the State under par. A correct registry of all such bonds shall be kept by the Treasurer in numerical order, so as always to exhibit the number and amount unpaid and to whom severally made payable.

SECTION 7.—The State shall never contract any public debt, unless in time of war, to repel invasion or suppress insurrection, except in the cases and in the manner provided in the fifth and sixth sections of this article.

SECTION 8.—*(Appropriation of money received from loan or State bonds.)* The money arising from any loan made, or debt or liability contracted, shall be applied to the object specified in the act authorizing such debt or liability, or to the repayment of such debt or liability, and to no other purpose whatever.

SECTION 14.—*(State debt for public buildings).* For the purpose of erecting and completing buildings for a hospital for the insane, a deaf, dumb and blind asylum, and State prison, the Legislature may by law increase the public debt of the State to an amount not exceeding two hundred and fifty thousand dollars, in addition to the public debt already heretofore authorized by the Constitution, and for that purpose may provide by law for issuing and negotiating the bonds of the State and appropriate the money only for the purpose aforesaid; which bonds shall be payable in not less than ten nor more than thirty years from the date of the same, at the option of the State.

SECOND, as to city, county or other municipality the only restriction on the debt-making power in the Constitution is the following, found in article 9, section 15.

SECTION 14.—*(Municipal debts in aid of railroads.)* The Legislature shall not authorize any county, township, city or other municipal corporation to issue bonds or to become indebted in any manner to aid in the construction or equipment of any or all railroads to an amount that shall exceed five per centum of the value of the taxable property within such county, township, city, or other municipal corporation; the amount of such taxable property to be ascertained and determined by the last assessment of said property made for the purpose of State and county taxation previous to the incurring of such indebtedness.

The foregoing was adopted as an amendment in 1879. Before its adoption the section read so as to authorize municipal corporations to issue bonds in aid of railroads to *ten per cent* of valuation. Hence the amendment consisted in simply changing the word *ten* and making it *five*.

This is all the Constitution contains with reference to the debts of municipalities. The Legislature, however, has made some general provisions governing bond issues.

First, respecting cities, there is the general power granted the common council of any city to borrow money to pay any city indebtedness, and to issue therefor city bonds bearing interest not to exceed 10 per cent and redeemable within ten years. *The restrictions are:* (1) That ordinances must be passed by the affirmative vote of a majority of the common council, signed by the Mayor, and published in the official city newspapers and recorded after proof of publication. (2) At no time can such indebtedness, bonded or otherwise, exceed $15,000, unless the same be authorized by a two-thirds vote at the election held for such purposes. (3) The council shall each and every year levy a tax of one mill on the dollar for each one thousand dollars of bonds issued by the said city to pay the interest and to create a sinking fund to pay the bonds at maturity. The foregoing is found in chapter 10, section 168, of the General Statutes of Minnesota, vol. I., page 196, edition of 1888.

Second, and further as to cities, the common council is authorized to *issue bonds* and levy taxes exceeding the amount authorized by other sections of this act; *provided* the same be authorized by the majority of voters present and voting at an election to be held for that purpose.

The time, place and manner of holding such election to be prescribed by the common council, the same notice to be given as at other elections. *And no bonds for any purpose shall be issued unless so authorized.* The foregoing is the latter half of section 171, chapter 10, Statutes of Minnesota, vol. 1, page 197. The last sentence which we have italicized would, on its face, appear to take away the right of the common council to issue even $15,000 of bonds (without an election) as authorized by previous section 168 cited above. This idea also seems to find confirmation in section 170, last clause, which reads that "no debt shall be "incurred or created by the city, the common council or any officer of "the city except pursuant to the authority herein expressly given for "that purpose."

Third, through the board of supervisors, towns can issue bonds as directed by two-thirds of all legal voters voting at a legally-called town meeting held for that purpose, payable in such amounts and at such times, not exceeding six years from date as two-thirds of voters determine. For further particulars respecting these issues, see section 114, chapter 10, Statutes of Minnesota, volume 1, page 182. A following section (section 116) makes it the duty of the supervisors on or before the first of September next after the date of said bonds, and each and every year thereafter until the payment of said bonds, to levy a tax "equal to the amount of principal and interest maturing the year next after such levy," and in the discretion of said supervisors such further sum as they deem expedient, not exceeding twenty per cent of such maturing bonds, which taxes shall constitute a fund for the payment of said bonds.

Fourth, The trustees or board of education of any school district may issue *school bonds* of their respective districts in such amount and of such length as to payment, not exceeding ten years, as two-thirds of the voters voting at any legally-called meeting shall direct. For further particulars respecting these bonds see section 26, chapter 36, of the Statutes of Minnesota, volume 1, page 472. In section 28, same page, are provisions for levying a tax for the payment of bonds quite similar to the provisions with reference to the payment of town bonds cited above.

Fifth, with respect to all *school bonds,* see section 5, article VIII. of the *Constitution of Minnesota,* which authorizes the loaning of the Permanent School Funds upon interest at the rate of 5 per cent to the several counties and school districts, to be used in the erection of county or school buildings.

Sixth, as to the creating of county debt, there is no general authorization, the issues when made being under special acts. Of course *"railroad aid bonds"* are provided for by statute for county, cities, and all other municipalities. See, for the law on that subject, section 92, &c., chapter 34, Statutes of Minnesota, vol. I., page 388, &c. So, also, the borrowing from the Permanent School Funds under the above cited section of the Constitution (section 5, article VIII.) is provided for by section 84, chapter 36, Statutes of Minnesota, vol. II., page 448 There is likewise a general statute for the issue of "motor road bonds" by the county, the particulars respecting which will be found in section 132, chapter 13, of Statutes of Minnesota, vol. I., page 277.

General statutory limitation, applying to all municipalities. Debts of cities, counties, towns, &c., are void if entailing taxation beyond the rate fixed by law. See section 114, chapter 11, Statutes of Minnesota, vol. I., page 243. Of course this section does not apply where the law authorizes increased taxation, as, for instance, when a majority of the legal voters so direct; such authorization and action bring the case under the exception contained in the section, which is that the act is unlawful "*unless* specially and expressly authorized by law."

Net debt	$6,820,424	$6,655,745	$6,821,755	$6,497,093
Water debt (incl.)	$1,770,000	$1,830,000	$1,830,000	$1,430,000

SINKING FUND.—It is provided by the city's charter that in addition to raising a tax sufficient to pay the interest on all its bonds the city shall levy a tax of one mill on each dollar of the assessed valuation to provide for the principal of the bonds when due. The maintenance of this sinking fund for the payment of the principal of the bonds is "declared to be part of the contract with the holder of any bonds of the city that may hereafter be issued and shall be kept inviolate." In accordance with this provision there was raised by taxation for the sinking fund in 1898 $188,225. The sinking fund is invested in city of Minneapolis 4 and 4½ per cent bonds.

BOND LIMIT.—The city of Minneapolis is restricted in all legislative acts authorizing the issue and sale of bonds, and is required to keep within the following limit: From the total issue of all city bonds shall be deducted the total amount of funds and securities in the sinking fund, and this balance shall not exceed 5 per cent of the aggregate value of the taxable property of the city as assessed and determined for the purpose of taxation.

WATER RECEIPTS.—The receipts from water in 1898 were $202,080; current expenses for water works, $104,957.

VALUATION AND INDEBTEDNESS.—The city's assessed valuation (property being assessed about ½ of its actual value) tax rate and bonded debt have been as follows on December 31 of the years given:

Years.	*Tax Valuation.*	*Tax Rate, per* $1,000.	*Total Bonded Debt.*
1898	$107,227,385	$28 00	$8,315,000
1897	109,654,337	25 00	8,215,000
1896	109,316,247	23 25	7,840,000
1890	136,944,372	19 30	7,080,500
1885	77,468,267	19 60	2,461,000
1879	23,415,733	14 50	1,101,000

In 1899 the valuation of real estate was $90,309,980, and of personal property $18,939,628.

The tax rate in 1898 included city tax, $12 10; State tax, $3 03; county tax $2 87 and school tax $5 00. The total tax levy of 1898 was $2,466,227, of which $310,968 was for interest on debt and $120,499 for sinking fund.

POPULATION.—In 1895 population was 192,833; in 1890 it was 164,738; in 1880 it was 46,887; in 1870 it was 13,066; in 1898 (estimated), 210,000.

TAX RATE.—The State tax (per $1,000) for 1899 was $2·90.

DEBT LIMITATION.—Iowa's Constitution restricts the creating of debt, both State debt and municipal debt.

FIRST, as to State debt, the limitation made is not absolute, for it permits other debt if authorized by some law for some single specified work. But this permission is very safely guarded—(1) the law must provide for the collection of a direct annual tax sufficient to pay the interest regularly and discharge the debt in twenty years; and (2) the law cannot take effect until it has been submitted to the people at a general election, and has received a majority of the votes cast. All the debt provisions relating to the State we give below.

ARTICLE 7, Section 1. [*Limitation of State indebtedness.*] The credit of the State shall not in any manner be given or loaned to, or in aid of, any individual, association, or corporation; and the State shall never assume, or become responsible for, the debts or liabilities of any individual, association or corporation, unless incurred in time of war for the benefit of the State.

SECTION 2. [*Same.*] The State may contract debts to supply casual deficits or failures in revenues, or to meet expenses otherwise provided for; but the aggregate amount of such debts, direct and contingent, whether contracted by virtue of one or more acts of the General Assembly or at different periods of time, shall never exceed the sum of two hundred and fifty thousand dollars; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.

SECTION 4. [*For what other purposes State may contract debt.*] In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection, or defend the State in war; but the money arising from the debts so contracted shall be applied for the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

SECTION 5. [*Other debts to be authorized.*]—Except the debts hereinbefore specified in this article, no debt shall be hereafter contracted by or on behalf of this State, unless such debt shall be authorized by some law for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal of such debt within twenty years from the time of contracting thereof; but no such law shall take effect until at a general election it shall have been submitted to the people, and have received a majority of all the votes cast for and against it at

such election; and all money raised by authority of such law shall be applied only to the specific object therein stated, or to the payment of the debt created thereby; and such law shall be published in at least one newspaper in each county, if one is published therein, throughout the State, for three months preceding the election at which it is submitted to the people.

ARTICLE VIII, Section 3. [*State not to be a stockholder.*]—The State shall not become a stockholder in any corporation, nor shall it assume or pay the debt or liability of any corporation, unless incurred in time of war for the benefit of the State.

There can be but little fear that a State or city will ever create debt in any larger amount than it can easily pay where the law, as in the above case, requires a tax to be levied at the time of its creation sufficient to pay the interest annually and the principal when due.

SECOND, as to municipal indebtedness, the limit is fixed absolutely in the Constitution. The provisions covering the subject are as follows:

ARTICLE VIII, Section 4. [*Corporation not to be a stockholder.*] No political or municipal corporation shall become a stockholder in any banking corporation, directly or indirectly.

ARTICLE XI, Section 3. [*To what amount county may become indebted.*] No county or other political or municipal corporation shall be allowed to become indebted in any manner, or for any purpose, to an amount in the aggregate exceeding five per centum on the value of the taxable property within such county or corporation—to be ascertained by the last State and county tax list previous to the incurring of such indebtedness.

The above (section 3 of article XI) covers cities, counties, towns and every other kind of political or municipal corporation. The Supreme Court of Iowa has decided that even a school district is such a corporation and subject to the 5 per cent limit.

POPULATION OF STATE.—The population of Iowa has been as follows in the years named:

TOTAL DEBT, ETC.—

	March 1, 1899.	*March* 1, 1898.	*March* 1, 1897.
Total bonded debt under 5 p. c. limit.	$61,400	$101,400	$101,400
Special bonds	223,000	223,000	262,000
Special assessment bonds	44,900	74,100	101,500
Bonded debt	$329,300	$398,500	$464,900

The special assessment bonds are secured by property certificates issued and held in trust for bondholders.

In addition to the bonded debt the city had outstanding on March 1, 1899, general fund warrants to the amount of $141,056; water fund warrants to the amount of $76,875, and special fund warrants to the amount of $4,768. For the purpose of funding the warrants the City Council has authorized the issuance of $150,000 bonds. The issuance of these bonds has been prevented by litigation; and a decision recently handed down by Judge Towner declares that the general city bonds, and the intersection, sewer, grading and paving bonds constitute the indebtedness of the city; hence that the city is in excess of its debt limit. See CHRONICLE, March 25, 1899. A tax levy of $5·00 (per $1,000) is made each year for water purposes.

The sinking funds accumulated on the straight city bonds on March 1, 1899, amounted to $2,843, and on the inter-section improvement bonds to $24,748, and on the warrants $53,905, making a total of $81,496.

ASSESSED VALUATION.—The city's assessed valuation has been as given below in the years named. The noticeable decrease in 1899 is due to a change in the law. Property was formerly assessed at from 30 to 40 per cent of its value, but under the new law all real estate is assessed at 25 per cent of its actual value.

Legislature meets biennially in odd years on the first Wednesday after the first Monday of January, and there is no limit to length of sessions; but after the first seventy days members can draw only a dollar a day for their services, except every tenth year, when the statutes are revised, at which session members are allowed $5·00 per day for 120 days. A session of this kind was held in 1899.

HISTORY OF DEBT.—The interesting details of Missouri's eventful history in debt-making and debt-paying will be found on page 111 of the STATE AND CITY SUPPLEMENT for April, 1893. The details of the debt on Jan 1, 1899, were as follows:

Total debt	$8,035,839	$8,569,839	$9,369,839

Under a provision of the State Constitution at least $250,000 of State indebtedness must be retired annually. The total debt, including accrued interest, &c., on Jan. 1, 1865, was $36,094,908.

ASSESSED VALUATION.—The State's assessed valuation (about one-fourth actual value) and tax rate have been as follows. This valuation does not include valuation of railroads, bridges and telegraphs, which amounted in 1898 to $89,759,694, or of machinery, tools, merchandise, etc., as taxed on "merchants' and manufacturers' tax books," which amounted in 1898 to $55,125,824.

DEBT LIMITATION.—Missouri has made provision in its Constitution restricting the creation of debt both on behalf of the State and of its municipalities.

FIRST, with respect to the State, the regulations are full and specific. They are found in article 6, sections 44, 45 and 46, which we subjoin.

ARTICLE 6, Section 44. *(General Assembly not to contract debts except as herein.)* The General Assembly shall have no power to contract or to authorize the contracting of any debt or liability on behalf of the State, or to issue bonds or other evidences of indebtedness thereof, except in the following cases:

First, In renewal of existing bonds, when they cannot be paid at maturity out of the sinking fund or other resources.

Second, on the occurring of an unforeseen emergency, or casual deficiency of the revenue, when the temporary liability incurred, upon the recommendation of the Governor first had, shall not exceed the sum of two hundred and fifty thousand dollars for any one year, to be paid in not more than two years from and after its creation.

Third, on the occurring of any unforeseen emergency, or casual deficiency of the revenue, when the temporary liability incurred or to be incurred shall exceed the sum of two hundred and fifty thousand dollars for any one year, the General Assembly may submit an act providing for the loan, or for the contracting of the liability, and containing a provision for levying a tax sufficient to pay the interest and principal when they become due (the latter in not more than thirteen years from the date of its creation), to the qualified voters of the State, and when the act so submitted shall have been ratified by a two-thirds majority, at an election held for that purpose, due publication having been made of the provisions of the act for at least three months before such election, the act thus ratified shall be irrepealable until the debt thereby incurred shall be paid, principal and interest.

SECTION 45. *(State's credit not to be loaned.)* The General Assembly shall have no power to give or to lend, or to authorize the giving or lending of the credit of the State in aid of or to any person, association or corporation, whether municipal or other, or to pledge the credit of the State in any manner whatsoever, for the payment of the liabilities, present or prospective, of any individual, association of individuals, municipal or other corporation whatsoever.

SECTION 46. *(Public money, grant of prohibited.)* The General Assembly shall have no power to make any grant, or to authorize the making of any grant of public money or thing of value to any individual, association of individuals, municipal or other corporation whatsoever. *Provided*, That this shall not be so construed as to prevent the grant of aid in a case of public calamity.

The foregoing sections cover all phases of State indebtedness and so restrict action as to put the State beyond the chance of future debt embarrassment.

SECOND, with regard to cities and other municipalities, the provisions are in like manner full and wisely constructed. There are three—section 47 in article 6, section 6 in article 9 and section 12 in article 10. We give them complete below.

ARTICLE 6, Section 47. *(Municipalities, loaning credit of.)* The General Assembly shall have no power to authorize any county, city, town or township, or other political corporation or sub-division of the State now existing, or that may be hereafter established, to lend its credit, or to grant public money or thing of value in aid of or to any individual, association or corporation whatsoever, or to become a stockholder in such corporation, association or company.

ARTICLE 9, Section 6. *(Municipalities not to subscribe to capital stock of corporations.)* No county, township, city or other municipality shall hereafter become a subscriber to the capital stock of any railroad or other corporation or association, or make appropriation or donation, or loan its credit to or in aid of any such corporation or association, or to or in aid of any college or institution of learning or other institution, whether created for or to be controlled by the State or others. All authority heretofore conferred for any of the purposes aforesaid by the General Assembly, or by the charter of any corporation, is hereby repealed: *Provided, however*, That nothing in this Constitution contained shall affect the right of any such municipality to make such subscription where the same has been authorized under existing laws by a vote of the people of such municipality prior to its adoption, or to prevent the issue of renewal bonds, or the use of such other means as are or may be prescribed by law for the liquidation or payment of such subscription, or of any existing indebtedness.

ARTICLE 10, Section 12. *(Municipal indebtedness, limit of.)* No county, city, town, township, school district or other political corporation or sub-division of the State shall be allowed to become indebted in any manner or for any purpose to an amount exceeding in any year the income and revenue provided for such year, without the assent of two-thirds of the voters thereof voting at an election to be held for that purpose; nor in cases requiring such assent shall any indebtedness be allowed to be incurred to an amount, including existing indebtedness, in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the assessment next before the last assessment for State and county purposes, previous to the incurring of such indebtedness: *Provided*, That with such assent any county may be allowed to become indebted to a larger amount for the erection of a court-house or jail. *And provided further*, That any county, city, town, township, school district, or other political corporation or subdivision of the State, incurring any indebtedness, requiring the assent of the voters as aforesaid, shall, before or at the time of doing so, provide for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and also to constitute a sinking fund for payment of the principal thereof, within twenty years from the time of contracting the same.

It is scarcely necessary to add anything to the foregoing. The sections given make clear (1) that a municipality cannot loan its credit; (2) that it cannot subscribe to the capital stock of corporations; (3) that it cannot get into debt unless two-thirds of the voters voting at an election favor it, and then only to an aggregate of 5 per cent of valuation, *except* that with such assent any county may be allowed to become indebted in a larger amount for the erection of a court house or jail, and finally (4) that before or at the time of getting the assent of the oters an annual tax must be provided sufficient to pay interest and orm a sinking fund to pay the debt within 20 years. These provisions are certainly very conservative.

POPULATION OF STATE.—The population of Missouri has been as follows in the years named.

1890.....	2,679,184	1860.....	1,182,012	1830.....	140,455
1880.....	2,168,380	1850.....	682,044	1820.....	66,557
1870.....	1,721,295	1840.....	383,702	1810.....	19,783

The proportion of the colored population was 6·70 per cent in 1880 and 5·75 per cent in 1890. In number blacks were 90,040 in 1850; 118,503 in 1860; 118,071 in 1870; 145,350 in 1880, and 154,131 in 1890.

W. Harris & Co., N. Y., and on the Westport funding bonds by the New York Security & Trust Co., N. Y. C.

TOTAL DEBT, SINKING FUNDS, ETC.—The subjoined statement shows the city's total municipal debt and the sinking funds held by the city against the same at the dates indicated.

	Aug. 1, '99.	Feb. 1, '99.	Aug. 15, '98.	Aug. 15, '97.
Total bonded debt	$3,727,900	$3,727,900	$3,767,900	$3,690,000
Sinking funds	312,900	228,497	227,900	154,410
Net debt	$3,415,000	$3,499,503	$3,540,000	$3,535,590

The figures of total debt include the water debt, amounting in 1899 to $3,071,000.

The city has no floating debt and the surplus income received by it from the water works, after paying all operating expenses and the annual interest on the entire city debt, is now about $152,000.

A sinking fund is provided by the laws of Missouri calculated to extinguish the total debt of the city in about 20 years without reducing the amount appropriated for current expenses and improvements and without increasing taxation.

ASSESSED VALUATION.—The city's assessed valuation and tax rate have been as follows:

Year.	Real Estate.	Personal Property.	Merchants, Banks, etc.	Total	*City Tax per $1,000.
1899	$50,853,825	$18,881,510	†$.....	$69,735,385	$12·00

GOLD BONDS.—All the city's bonds are payable, principal and interest, in gold, except the $245,000 6s issued for purchase of Block 121.

INTEREST on all bonds is payable in New York City—on the Purchase of Block 121 6s, at the National Bank of the Republic; on the Park bonds at the National Bank of Commerce. Interest on the bonds payable in £ sterling, on those maturing in 1912, 1914 and 1915 and on the 3 1/2s of 1909 and 1918, is payable at the National Bank of Commerce, New York, or at the National Bank of Scotland (Limited), London, at the rate of $4·8665 per pound sterling. Interest on all other bonds is payable at the National Bank of Commerce, N. Y., or at the office of J. S. Morgan & Co., London, at the option of the holder.

TOTAL DEBT, SINKING FUNDS, ETC.—The subjoined statement shows St. Louis's total municipal debt and the water debt, &c.

	1899. April 10.	1896. April 13.	1893. April 10.
Total bonded debt	$19,392,278	$20,647,711	$21,376,020
Water, debt included	5,808,000	5,808,000	5,808,000

NOTE.—Under the charter the Municipal Assembly must appropriate $1,200,000 annually with which to pay debt and the interest thereon. That portion of each annual appropriation not required for the payment of the interest constitutes the sinking fund for redemption of the debt existing April 7, 1890, and bonds issued in renewal thereof. On the basis of renewing the city's bonded debt at 4 per cent, the debt for which this sinking fund was established will be extinguished in 1927.

CITY PROPERTY.—The city owns its water works, the revenue from which for water rates, permits, etc., for the fiscal year 1898-99 was $1,379,361 and net operating expenses and cost of collecting water rates were $521,250. In addition to the water works the city owns its hospitals, insane asylums and poor house, city hall, court house, jail, house of correction and work house, engine houses, markets, police stations, parks, etc.

ASSESSED VALUATION.—The city's assessed valuation (about 3-5 cash value) and tax rate have been as follows:

Years.	Real Estate and Personal Property.	—City tax per $1,000— New Limits.	New limit Increased	Old Limits	Bonded Debt. in April

TAX RATE.—In 1898 the tax rate (per $1,000) was $3·00.

DEBT LIMITATION.—South Dakota has incorporated into its Constitution very stringent provisions limiting the debt-making power of the State and its municipalities. All these provisions are found in Article XIII., and are as follows.

Section 1. Neither the State nor any county, township or municipality shall loan or give its credit or make donation to or in aid of any individual, association or corporation, except for the necessary support of the poor, nor subscribe to or become the owner of the capital stock of any association or corporation, nor pay or become responsible for the debt or liability of any individual, association or corporation; provided, that the State may assume or pay such debt or liability when incurred in time of war for the defense of the State. Nor shall the State engage in any work of internal improvement.

Sec. 2. For the purpose of defraying extraordinary expenses and making public improvements, or to meet casual deficits or failure in revenue, the State may contract debts never to exceed with previous debts in the aggregate $100,000, and no greater indebtedness shall be incurred except for the purpose of repelling invasion, suppressing insurrection, or defending the State or the United States in war, and provision shall be made by law for the payment of the interest annually, and the principal when due, by tax levied for the purpose, or from other sources of revenue; which law providing for the payment of such interest and principal by such tax tax or otherwise shall be irrepealable until such debt is paid; provided, however, the State of South Dakota shall have the power to refund the Territorial debt assumed by the State of South Dakota by bonds of the State of South Dakota.

Sec. 3. That the indebtedness of the State of South Dakota, limited by section 2 of this article, shall be in addition to the debt of the Territory of Dakota, assumed by and agreed to be paid by South Dakota.

SEC. 4. The debt of any county, city, town, school district, or other subdivision, shall never exceed *five per centum* upon the assessed value of the taxable property therein. In estimating the amount of indebtedness which a municipality or subdivision may incur, the amount of indebtedness contracted prior to the adoption of this Constitution shall be included.

SEC. 5. Any city, county, town, school district or any other subdivision incurring indebtedness shall, at or before the time of so doing, provide for the collection of an annual tax sufficient to pay the interest and also the principal thereof when due, and all laws or ordinances providing for the payment of the interest or principal of any debt shall be irrepealable until such debt be paid.

POPULATION OF STATE.—The population of South Dakota has been reported as follows in the years named.

1870	75,467,398	....

DEBT LIMITATION.—Nebraska has carefully provided in its Constitution against creating State indebtedness, but has left city and other municipal indebtedness chiefly in the care of the Legislature. *STATE* indebtedness is restricted to $100,000 to meet casual deficits in revenues, except in case of invasions, &c., while the loaning by the State of its credit is prohibited. The sections of the Constitution which have reference to these matters will be found in the STATE AND CITY SUPPLEMENT of April, 1895, pages 124 and 125.

POPULATION OF STATE.—The population of Nebraska has been as follows in the years named:

1890	1,058,910	1870	122,993
1880	452,402	1860	28,841

INCIDENTS IN STATE ORGANIZATION, ETC.—See STATE AND CITY SUPPLEMENT of April, 1893, page 124, for the facts and statements heretofore given under this head.

HISTORY OF DEBT.—When Kansas was admitted into the Union as a State (in 1861) it had a bonded debt of $150,000. The Constitution of 1859 limited the debt-making power to one million dollars (with certain restrictions and exceptions), as more fully described below. In 1866 the bonded debt was $630,775, of which the State owned $28,650. In 1878 the total bonded debt was $1,181,975, of which the State owned $713,600. The bonded debt Sept. 1, 1898, was $632,000, all held by State funds. At present the debt is:

DEBT LIMITATION,—Kansas has by its Constitution given the State power to contract public debts for the purpose of defraying extraordinary expenses and making public improvements in an amount not to exceed $1,000,000. This limit, however, has two exceptions. *First*, the next section provides that it may be exceeded if the proposed law for creating such debt shall be submitted to a vote of the electors, and if the proposed law be ratified by a majority of the votes cast. *Second*, the section following provides that the State may borrow money to repel invasion, &c. We give these sections in full and also the subsequent one which forbids the State being a party to internal improvements.

Debts, annual tax; proceeds. For the purpose of defraying extraordinary expenses and making public improvements, the State may contract public debts; but such debts shall never, in the aggregate, exceed one million dollars, except as hereinafter provided. Every such debt shall be authorized by law for some purpose specified therein, and the vote of a majority of all the members elected to each House, to be taken by the yeas and nays, shall be necessary to the passage of such law; and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt and the principal thereof when it shall become due; and shall specifically appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation shall not be repealed nor the taxes postponed or diminished until the interest and principal of such debt shall have been wholly paid.

Other debts. No debt shall be contracted by the State except as herein provided, unless the proposed law for creating such debt shall first be submitted to a direct vote of the electors of the State at some general election; and if such proposed law shall be ratified by a majority of all the votes cast at such general election, then it shall be the duty of the Legislature next after such election to enact such law and create such debt, subject to all the provisions and restrictions provided in the preceding section of this article.

Borrow money. The State may borrow money to repel invasion, suppress insurrection or defend the State in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was authorized, or to the repayment of the debt thereby created.

Internal improvements. The State shall never be a party in carrying on any works of internal improvement.

MUNICIPAL indebtedness is not restricted by the Constitution at all The only provision for the regulation of such matters contained in that instrument is the following, requiring the Legislature to make general laws and restricting the power to make debt in the case of cities, towns and villages.

Cities. Provision shall be made by general law for the organization of cities, towns and villages; and their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, shall be so restricted as to prevent the abuse of such power.

Under the foregoing the legislation of Kansas has become so extensive that our limited space here does not admit of even a brief digest. The reader will, however, find the ground very fully covered in a series of articles which were published in the CHRONICLE, Vol. 53, pages 854 and 942, and Vol. 54, pages 42 and 128.

POPULATION OF STATE.—The population of Kansas has been as follows in the years named. Population in 1899 est. at 1,425,112.

1890	1,427,096	1870	364,399
1880	996,096	1860	107,206

The proportion of the colored population was 4·33 per cent in 1880 and 3·59 per cent in 1890. In number blacks were 627 in 1860; 17,108 n 1870; 43,107 in 1880, and 51,251 in 1890.

ASSESSED VALUATION.—In 1899 the assessed valuation of real estate was $72,482,529; personal property, $54,288,096; railroads, $14,992,689; total, $141,763,314; in 1899 the State tax (per $1,000) was $2·50. Property is supposed to be assessed at full cash value.

DEBT LIMITATION.—The Constitution of Montana was adopted by popular vote October 1, 1889. Article XIII. contains the Sections which regulate the debt-making powers of State, county and city, and we gave those sections in full on page 135 of the STATE AND CITY SUPPLEMENT of April, 1895. It may be mentioned that the restrictions and limitations are distinctly and fully stated.

POPULATION OF STATE.—The population of Montana has been as follows in the year named:

1890.....132,159 | 1880.....39,159 | 1870.....20,595

In 1870-80 the increase was 18,564, or 90·14 per cent; in 1880-90 93,000, or 237·49 per cent.

1891	32,536,400		

TAX RATE—The total State tax (per $1,000) in 1899 was $6·25.

DEBT LIMITATION.—In Wyoming the provisions of the Constitution with respect to debt contraction and limitation are quite voluminous. They are all found in Article 16 of that instrument, and indicate that the State is determined to preserve with care the conservative reputation which it enjoyed as a Territory. Citations from the laws of the State respecting debt limitation will be found on page 137 of the STATE AND CITY SUPPLEMENT of April, 1895.

POPULATION OF STATE.—Wyoming's population has been as follows in the years indicated:

1890	60,705	1880	20,789	1870	9,118

In 1870-80 increase was 11,671, or 128·00 per cent, and in 1880-90 39,916, or 192·01 per cent.

DEBT, RESOURCES, Etc.

Organized as a Territory (Act March 3, 1863) - March 3, 1863
Admitted as a State (Act July 3, 1890) - - - July 3, 1890
Total Area of State (square miles) - - - - - 84,800
State Capital - - - - - - - - - - Boise
Governor (term ends 1st Monday Jan. '01) Frank Steunenberg
Secretary of State (term ends 1st Mon. Jan. 1901) - M. Patrie
Treasurer (term expires 1st Mon. Jan. 1901) - - C. C. Rice
Auditor (term expires 1st Mon. Jan. 1901) - B. Sinclair

Legislature meets biennially in odd years on the Monday after the 1st of January, and the length of sessions is limited to 60 days.

DEBT HISTORY.—Idaho as a Territory always kept its debt within moderate limits. When it became a State the bonded debt of the Territory was $146,715 06. Of that amount $46,715 06 was issued to pay floating debt, $80,000 to pay for Capitol building and $20,000 for an asylum. The condition of the State's debt now is set out with all the details below.

INTEREST on the asylum improvement and normal school bonds is payable at the Chase National Bank, New York; on the 6 per cent wagon-road bonds by Wells, Fargo & Co., New York; on the refunding bonds at the office of the State Treasurer.

TOTAL DEBT, ETC.—The total bonded debt on Jan. 1, 1899, was $393,000. The floating debt on the same date was $204,469 64.

ASSESSED VALUATION.—In 1899 the total assessed valuation was $46,548,313; in 1898 was $30,423,671; in 1893, $33,431,841, property being assessed at about ⅓ of its estimated true value. The tax rate per $1,000 in 1898 was $8·31; in 1893 it was $8·50.

DEBT LIMITATION.—Idaho has placed limits in its Constitution upon the debt-making power both of the State and its municipalities. Though the provisions have a conservative tendency, they are not quite as strict as the Constitutional limitations of most of the other new States. For a digest of the laws respecting debt limitation in Idaho, see STATE AND CITY SUPPLEMENT of April, 1895, pages 138 and 139.

POPULATION OF STATE.—The population of Idaho has been as follows in the years named:

1890.....84,385 | 1880.....32,610 | 1870.....14,999

In 1870-80 increase was 17,611, or 117·41 per cent, and in 1880-90 51,775, or 158·77 per cent. The population in 1899, estimated, is 150,000.

INTEREST on 6s paid in Hailey; on all other bonds in New York.

The above shows the debt for which Alturas County was primarily held, the bonds having been issued by Alturas County before the creation of Elmore and Logan counties and before the annexation of a part of Alturas to Bingham. When the Legislature parcelled out Alturas County it failed to provide for an apportionment of the debt.

The amount which Alturas County will be required to pay is only about one-fifth of above amount, because the bonds pledged the taxable property of the county as constituted at the time of issue, and before the division of Alturas. Elmore, Logan and part of Bingham County were taken from Alturas County in 1889.

DEBT LIMITATION.—Colorado's Constitutional provisions with reference to the creation of debt are of considerable length, and strike one at first as quite elaborate. After a brief study of the provisions their good qualities stand out so plainly as wholly to disarm criticism. No State has placed the debt-making power on a more reasonable basis. All the regulations with reference to public indebtedness are found in article 11 of the Constitution. See STATE AND CITY SUPPLEMENT of April, 1895, pages 140 and 141.

POPULATION OF STATE.—The population of Colorado has been as follows in the year named: in 1897 it was estimated at 500,000:

1890	412,198	1870	39,864
1880	194,327	1860	34,277

DEBT LIMITATION.—Municipal indebtedness as well as State debt is carefully regulated in the Constitution of California. The section which relates to the bonding of counties, cities, towns, etc., has been amended, the amendment having been adopted February 25, 1891. Nothing in explanation of the provisions needs to be said, as the sections of the Constitution treating of this subject are all very plain and comprehensive; they will be found in the STATE AND CITY SUPPLEMENT of April, 1895, page 146.

POPULATION OF STATE.—The population of California has been as follows in the years named.

1890	1,208,130	1870.....	560,247	1850.....	92,597
1880	864,694	1860.....	379,994		

In 1860-70 increase was 180,253, or 47·44 per cent; in 1870-80 304,447, or 54·34 per cent; and in 1880-90 343,436, or 39·72 per cent The number of Chinese in the population was 71,681 in 1890 and 75,132 in 1880.

CITIES, COUNTIES AND TOWNS IN THE STATE OF CALIFORNIA.

Many of the counties in this State levy a special tax on property outside incorporated cities and towns for making, repairing and sprinkling of roads, and the tax rate as given below under these counties is made up of the State tax rate and the county tax rate *including* special road tax.

SACRAMENTO.—A. L. FROST, Treasurer.

This city is the county seat of Sacramento County and the capital of the State. The original debt was a little less than $1,600,000, being four series of 6 per cent bonds, issued in 1858, and falling due in 1888, 1893, 1898 and 1903 The flood of 1861-1862 destroyed half of the property values, and the coupons had been delinquent for a dozen years. In 1872 a Funded Debt Commission (abolished by Legislative Act of 1899) was created and received from the city a gift, or capital, of $212,080 80. With this it bought bonds and coupons, and collected from the city as other creditors did and re-invested in more bonds and coupons. In 1899 the Commission was ordered by decree of Court to cancel $1,411,167 60 of the bonds and coupons at par. Only a very few bonds hence remain in private hands. The sinking fund in 1899 was large enough to cancel all past-due bonds.

SANTA CRUZ.—

This city is in Santa Cruz County. The city has been in litigation over its 5 per cent refunding bonds (issued April 16, 1894), which it refused to pay, they having been purloined, but on Sept. 28, 1898, the United States Circuit Court held the entire issue of $360,000 bonds invalid as between the city of Santa Cruz and purchasers of the bonds *having notice of the facts constituting their invalidity*, but also held that the city was estopped by recitals contained in the bonds, from denying their validity in the case of innocent purchasers for value. Upon this ground the court rendered judgment against the city for the amount of principal and interest due upon such bonds as were purchased upon the *faith of recitals* contained therein and without notice or knowledge of their invalidity. The municipality received no consideration whatever for these bonds. The city is in litigation also over $225,000 5 per cent water bonds issued Jan. 16, 1889, but in this case having received value for the bonds has been disposed to pay maturing principal and interest, notwithstanding their supposed invalidity. This payment, however, is resisted by certain tax payers.

Treasurer (term ex. 2d Mon. Jan. 1903) -	C. S. Moore

* The Legislature does not always canvass the vote for Governor immediately upon its meeting, and the Governor's term runs until his successor is declared elected.

Legislature meets biennially in odd years on the second Monday in January, and there is no limit to length of sessions; but members of the Legislature can draw pay only for 40 days' services in the aggregate.

HISTORY OF DEBT.—For history of Oregon's State debt see STATE AND CITY SUPPLEMENT of April, 1894, page 147.

To-day Oregon practically has no debt. There are some little left-over lots that go by that name, in the aggregate amounting to $1,829·79, which the State is ready and would be very glad to pay, but cannot get them in. Interest on these ceased prior to December 31, 1896.

On January 1, 1899, $2 3,984 88 of warrants were outstanding, in addition to which there are $34,925 38 of swamp land warrants, payable out of the proceeds of sales of swamp lands, redeemable on call of the Treasurer.

VALUATION.—The gross valuation as equalized by the State Board December 7, 1897, was $143,539,696; indebtedness and exemptions, $8,622,592; equalized valuation, $134,917,104. The total valuation for 1899 was $133,533,571. State tax rate (per $1,000), 1899 was $5·70.

DEBT LIMITATION.—Oregon framed and adopted its Constitution in 1857. It is quite a notable fact that the people of the State are to-day living under that instrument in the precise form in which it was originally adopted, for there never has been an amendment made to it. The provisions with respect to debt limitation will be found on pages 150 and 151 of the STATE AND CITY SUPPLEMENT of April, 1895.

POPULATION OF STATE.—The population of Oregon has been as follows in the years named:

1890	313,767	1870	90,923	1850	13,294
1880	174,768	1860	52,465

TOTAL DEBT.—The total bonded debt on July 1, 1899, was $220,000 (not including the $390,000 bonds issued for investment of the Permament School Fund), and the floating debt was $1,472,983.

ASSESSED VALUATION.—The assessed valuation, equalized by State board, for 1899 of real estate was $172,129,311; personal property, $36,507,245; railroads, $20,500,983; total, $229,137,539. The following statement shows the total assessed valuation of the State for the years indicated. The tax rate (per $1,000) for 1899 was $6·65, including $3·75 for school purposes.

Years.	*Assessment.*	*Years.*	*Assessment.*
1899	$229,137,539	1891	$273,642,099

DEBT LIMITATION.—Like so many of the younger States, Washington has taken a conservative position with respect to State and municipal indebtedness. The provisions of the Constitution with reference to creating debt are so comprehensive and plain that it is necessary to do no more than copy the sections relating to the subject.

FIRST, with reference to the State, there are three sections; the first limits the debt, the second names exceptions to the limit and the third provides the method in which additional debt may be created. These sections are all found in article 8, and were given in the State and City Supplement of April, 1895; page 152.

SECOND, Counties, Cities, Towns &c. are more rigorously guarded. The whole system as to municipalities is found in section 6 of article 8, though section 7 is also important, as it forbids counties, cities &c. giving money or loaning credit to any corporation &c. Sections 6 and 7 will be found on page 152 of the April, 1895, Supplement.

The State tax rate (per $1,000) for 1898 was $9·20.

DEBT LIMITATION.—Nevada has in its Constitution limited the *State* to a nominal indebtedness, except for the purpose of "defraying extraordinary expenses" arising from invasion, war, etc.; and in such cases the law shall provide an annual tax sufficient to pay the interest semi-annually and the principal within twenty-years. Further the State is forbidden ever to assume the debt of any county, city, etc., or to donate or loan its money or credit, or to subscribe to the stock of any company, etc.

Counties, cities, towns etc. cannot become stockholders in any company, or loan its credit, etc. But other than that the Constitution omits to put any limit on county, city, etc., debts; but provides that the Legislature shall make general laws restricting their borrowing power. The Constitutional provisions referred to are as follows:

ARTICLE IX., SECTION 3. [*State debt limited.*] For the purpose of enabling the State to transact its business upon a cash basis from its organization, the State may contract public debts, but such debts shall never in the aggregate, exclusive of interest, exceed the sum of three hundred thousand dollars, except for the purpose of defraying extraordinary expenses, as hereinafter mentioned. Every such debt shall be authorized by law for some purpose or purposes, to be distinctly specified therein, and every such law shall provide for levying an annual tax sufficient to pay the interest semi-annually and the principal within twenty years from the passage of such law, and shall specially appropriate the proceeds of said taxes to the payment of said principal and interest; and such appropriation shall not be repealed, nor the taxes be postponed or diminished, until the principal and interest of said debts shall have been wholly paid. Every contract of indebtedness entered into or assumed by or on behalf of the State, when all its debts and liabilities amount to said sum before mentioned, shall be void and of no effect, except in cases of money borrowed to repel invasion, suppress insurrection, defend the State in time of war, or, if hostilities be threatened, to provide for the public defense.

SECTION 4. [*State prohibited from assuming debts of cities, &c.*] The State shall never assume the debt of any county, town, city, or other corporation whatever, unless such debts have been created to repel invasion, suppress insurrection or to provide for the public defense.

ARTICLE VIII., SECTION 9. [*State shall not loan its money or credit &c.*] The State shall not donate or loan money or its credit, subscribe to or be interested in the stock of any company, association or corporation, except corporations formed for educational or charitable purposes.

ARTICLE XVII., SECTION 7. [*State to assume debts of the Territory.*] All debts and liabilities of the Territory of Nevada lawfully incurred, and which remain unpaid at the time of the admission of this State into the Union, shall be assumed by and become the debt of the State of Nevada *Provided*, That the assumption of such indebtedness shall not prevent the State from contracting the additional indebtedness, as provided in section 3 of article 9 of this Constitution.

ARTICLE VIII., SECTION 10. [*County, city, town &c. not to be stockholders, &c.*] No county, city, town, or other municipal corporation, shall become a stockholder in any joint-stock company, corporation or association whatever, or loan its credit in aid of any such company, corporation or association, except railroad corporations, companies or associations.

SECTION 8. [*Cities and towns to be restricted by general laws*]. The Legislature shall provide for the organization of cities and towns by general laws; and restrict their powers of taxation, assessment, borrowing money, contracting debts, and loaning their credit, except for procuring supplies of water.

POPULATION OF STATE.—Though Nevada has some good grazing land, the mining industry, more particularly silver mining, has had chief attention, and with the decline of this, population has also declined, the Census of 1890 showing a total of only 45,761 persons, against 62,266 in 1880. The famous Comstock lode is located within Nevada, but the silver production of the State has greatly fallen off in recent years. The full record of population is as follows:

1890.....45,761 | 1880.....62,266 | 1870.....42,491 | 1860.....6,857

STATE DEBT.—For a detailed report of the Virginia debt as it stood prior to 1892, and for the history of the recent settlement made by and between the Virginia Debt Commission and the Bondholders' Committee, see the STATE AND CITY SUPPLEMENT of April, 1893, pages 151 and 152. Other items of interest with reference to the Virginia debt will be found in the CHRONICLE as follows: Vol. 56, p. 636, 802; V. 57, p. 155, 190, 565, 733, 950, 1053; V. 58, p. 232, 274, 315, 357.—V. 66, p. 392.—V. 67, p. 333.—V. 68, p. 196, 241.

At present Virginia's debt stands as shown below:

LOANS— NAME AND PURPOSE.	Interest. P. Ct.	Interest. Payable.	Principal. When Due.	Principal. Outstand'g.
Riddleberger Bonds, Act of 1882	3	J & J	July 1, 1932 Subject to call after 1900.	$6,329,554
Century bonds, dated 1891	2&3	J & J	July 1, 1991	18,001,922

NOTE.—On Sept. 19, 1899, $114,000 century bonds were purchased by the Sinking Fund for retirement.

The interest on the Century bonds is 2 per cent for the first 10 years (or until July 1, 1901,) and 3 per cent thereafter. Both issues are exempt from taxation.

Total amount of bonds issued under act of Feb. 20, 1892:

To Bondholders' Committee	$16,359,860
Deposited with Commissioners of sinking fund	1,645,420
	$18,005,280
Canceled	3,357
Total	$18,001,922
Total Act of Feb. 14, 1882	6,329,554
Total debt Sept. 1, 1899.	$24,331,476

The Virginia Legislature re-enacted the Funding Act of Feb. 20, 1892, and under its provisions all old Virginia bonds were allowed to be brought in and funded into new Century bonds, upon the same terms as the Olcott settlement, provided they were presented for funding prior to December 31, 1896. By the Act of January 25, 1898, however, another opportunity to fund the bonds was given. By this Act bondholders had until July 1, 1898, to come in and accept the terms, and power was given the Commissioners of the Sinking Fund to extend the time until Dec. 31, 1898. Bonds were to carry interest from the semi-annual period next preceding the date of funding. Under the old law coupon bonds once converted into registered certificates were not re-convertible into coupon bonds, but the 1892 Act makes coupon and registered bonds interchangeable.

WEST VIRGINIA CERTIFICATES.—In the settlement of 1871 it was assumed that West Virginia should provide for one-third the principal and interest of the then existing debt, that is $15,239,370 out of the total debt of $45,718,112. To represent, therefore, West Virginia's share of bonds funded "deferred certificates" were issued. All efforts, however, to induce West Virginia to take recognition of these certificates have thus far been unavailing. In 1885 the holders of about $8,000,000 certificates united for the purpose of obtaining a compromise, and deposited their holdings with the Farmers' Loan & Trust Company, which gave its trust receipts therefor. This attempt came to nothing, and in 1890 Messrs. C. Satterthwaite & Sons, of No. 30 Throgmorton Street, London, E. C., started another movement to bring about a settlement.

An adjustment company, with the Mercantile Trust & Deposit Company of Baltimore at its head, was formed late in 1893 for the purpose of making an attempt at the settlement of the West Virginia certificates. See CHRONICLE, Vol. 57, page 819; Vol. 58, pages 51, 314 and 444. In August, 1898, another movement was started, this time under the leadership of Messrs. Brown Bros., with the same object in view, and that movement is now being vigorously pushed. The plan provides for ascertaining the exact amount of the old Virginia debt with which West Virginia is justly chargeable (subject to certain limitations), and then compromising that amount at the same percentage at which Virginia compromised the two-thirds of the original Virginia debt, namely, 60 per cent for principal and 30¼ per cent for interest. (See the editorial article in STATE AND CITY SUPPLEMENT for April, 1899.)

After about three-fourths of the old Virginia bonds had been surrendered, and "deferred certificates" been given to represent West Virginia's one third, under the acts of 1871 and 1879, these acts were repealed. The remaining bonds were refunded under other laws. These laws required a certificate to represent one-third the *principal* of the old bonds brought in for funding, but gave "non-interest-bearing certificates" to represent one-third the *interest* on old bonds. The following shows the amounts of each issue:

LOANS— NAME AND PURPOSE.	Interest. P. Ct.	Interest. Payable.	Principal. When Due.	Principal. Outstand'g.
"Def'd certs." of 1871 and 1879	6	J. & J.	Contingent.	$12,961,530*

* It is estimated that about $475,000 were issued under the act of 1879.

ASSESSED VALUATION.—The State's assessed valuation and tax rate have been as follows in the years indicated below.

Years.	Assessment of Real Estate.	Assessment of Personal Property.	Total.	Tax Rate per $1,000.

MEMPHIS.—JOS. J. WILLIAMS, Mayor. W. B. ARMOUR, Secretary.

Memphis is the County seat of Shelby County. A yellow fever epidemic in 1878 rendered the city unable to meet its obligations, and in 1879 the city's charter was repealed and the Taxing District of Shelby County was organized for the purpose of securing a compromise with the bondholders on such terms as the city felt able to make. The courts, however, held that the Taxing District was liable for the entire debt of the city, and a compromise at 50 per cent was then arranged for under the act of March 1883. This act was amended in 1885. The old debt has been all retired and interest payments are promptly made. In 1891, by an act of the Legislature, this district was again incorporated as a city.

FREEDOM FROM TAXATION.—Bonds are free from local tax.

TOTAL DEBT, ETC.—The city's bonded debt on Dec. 19, 1898, was $2,980,000; the total debt on April 1, 1898, was $3,040,000 sinking fund, $21,000; net debt, $3,019,000.

An annual tax of $1·00 per $1,000 is levied for the retirement of the bonds. A tax sufficient to meet the interest is also required by law.

The funding act of 1883 provides that every part thereof shall be considered a contract between the State, the Taxing District and the bondholders, and no part material to the rights of the bondholders shall be modified while the bonds remain outstanding.

ASSESSED VALUATION.—The assessed valuation and tax rate have been as follows, the assessment for 1894 being about $^3/_5$ actual value:

INTEREST is payable in New York and Nashville—in New York by the Merchants National Bank. All coupons are tax receivable.

TAX FREE.—All bonds issued by this city are exempt from city tax-

TOTAL DEBT, SINKING FUNDS, ETC.—The city's bonded debt on July 1, 1899, was $3,412,000, including a water debt of $1,497,000. The city has no floating debt. Beginning in 1900, 10 per cent of all revenues collected by the city, except for schools, will be set aside to form a sinking fund (Act of General Assembly 1899).

WATER WORKS.—The city owns its water works, on which it has expended $1,500,000. By act of Legislature the net revenue derived from sales of water must be applied to interest on the water bonds.

DEBT LIMITATION.—New bonds can be issued only with permission of the Legislature and the vote of the people.

DEBT, RESOURCES, ETC.

Admitted as a State	One of Original Thirteen
Total area of State (square miles)	52,250
State Capital	Raleigh
Governor (term expires Jan. 1, 1901)	D. L. Russell
Secretary of State (term exp. Jan. 1, 1901)	Cyrus Thompson
Treasurer (term expires Jan. 1, 1901)	W. H. Worth

Legislature meets biennially in odd years on the Wednesday after the first Monday in January, and there is no limit to length of sessions, but if sessions are continued longer than 60 days members "shall serve without compensation."

STATE DEBT.—The old debt, excepting such as is not recognized, has mostly been funded under the funding laws of 1879, the time prescribed for the exchange having been extended to January 1, 1901. These laws provided for the issue of (1) consolidated 4 p. c. bonds due in 1910 to fund old ante-war bonds at 40 per cent of face value, "New" railroad bonds recognized as valid at 25 per cent, and bonds of 1866 and 1868 at 15 per cent, nothing being given for overdue coupons; and (2) for new consolidated 6 per cent bonds due in 1919, for which the North Carolina RR. construction bonds were made exchangeable at par, holders of construction bonds abating $240 of overdue interest on each $1,000 bond. The new bonds, both 4s and 6s, carry tax-receivable coupons, and are exempt from "all State, county or corporate taxation or assessment, direct or indirect, general or special."

An amendment to the State Constitution passed by the Legislature in 1879 and ratified by popular vote in 1880, forbids the General Assembly to pay or recognize as valid the following bonds: Special tax bonds $11,366,000; bonds to Chatham RR., 1868, $1,030,000, and to Williamston & Tarboro RR., $150,000; Penitentiary bonds of 1868 $44,000. The special tax bonds are in 3 classes, class 1 bearing the coupon of April 1869 and since; class 2 bearing the coupon of Oct. 1869; class 3 bearing the coupon of April, 1870 Holders of the special tax bonds brought suit to establish the validity of their bonds and the case was decided in favor of the State.

The recognized debt which had been adjusted up to Aug. 16, 1899, stood as follows:

LOANS—	Interest.		Principal.	
NAME AND PURPOSE—	P. Ct.	Payable.	When Due.	Outstand'g
Construction bonds	c* 6	A & O	Apr. 1, 1919	$2,720,000
Renewal bonds	c* 4	J & J	July 1, 1910	3,370,850
Bonds of 1889—				
Pison debt bond, 4s	....	J & J	Jan. 1, 1910	110,000
Prison farm bonds, 4s	....	J & J	Jan. 1, 1910	60,000

PAR VALUE OF BONDS.—The consolidated 4s are $50, $100, $500 and $1,000; the consolidated 6s $1,000 each. The prison bonds are for $100, $500 and $1,000 each.

INTEREST on the consolidated 4s and 6s is payable in New York at the National Bank of the Republic and in Raleigh.

TOTAL DEBT RECOGNIZED AND TOTAL ADJUSTED.—The funding act of March 4, 1879, was extended to Jan. 1, 1901. The recognized fundable debt which has been funded and the recognized fundable debt which has *not* been funded are as follows:

	Funded.	Not funded
Consols 6 per cent	$2,720,000	$25,000
Consols 4 per cent	3,370,850	240,920

To the foregoing we should add the further fact that the State does not have to raise money for the interest on the six per cent bonds for the reason that the lease of the North Carolina Railroad provides a fund for the payment of the interest thereon, and the State holds three millions in the stock of the road, which if sold will much more than pay the principal.

ASSESSED VALUATION.—The State's assessed valuation (about 60 per cent of cash value) and tax rate have been as follows:

Years.	Real Estate.	Personal.	Railroads.	Total.	Tax Rate.
1898.	$155,280,169	$76,967,160	$33,619,868	$265,867,197	$4·30
1897.	153,858,554	75,995,995	29,157,099	259.011,508	4·30
1896.	153,835,584	77,025,547	26,576,096	257,437,227	4·30
1894.	158,088,064	76,391,837	25,084,549	259,564,450	4·13⅓
1891.	155,079,648	87,370,243	19,726,760	262,176,651	4·33⅓
1890.	141,817,026	74,946,718	18,438,298	235,202,042	2·50
1885.	126,955,679	82,613,417	.....	209,569,096	2·50
1881.	104,742,911	62,995,728	.....	167,738,639	2·80

POPULATION OF STATE.—The population of North Carolina has been as follows:

1890	1,617,947	1860	992,622	1830	737,987
1880	1,399,750	1850	869,039	1820	638,829
1870	1,071,361	1840	753,419	1810	555,500

The proportion of the colored population was 37·95% in 1880 and 35·05% in 1890. In number blacks were 316,011 in 1850; 361,522 in 1860; 391,650 in 1870; 531,277 in 1880, and 567,170 in 1890.

Total area of State (square miles) - - - - - 59,475
State Capital - - - - - - - - - Atlanta
Governor (term expires *Oct. 1900) - - Allen D. Candler
Secretary of State (term expires *Oct. 1900) - - Philip Cook
Treasurer (term expires *Oct. 1900) - - William J. Speer
Comptroller (term expires *Oct. 1900) - William A. Wright

Legislature meets annually in October, and sessions are limited to fifty days.

*Section 49 of the Code says: "The Governor-elect shall begin the discharge of his duties from the time of his inauguration. The ceremony of inauguration shall take place during the first week of the session of the General Assembly next after the election, and on such day of that week as the General Assembly by joint resolution appoints. On failure of appointment, it takes place at 12 o'clock, meridian, on Saturday of that week, unless prevented by providential causes." Article V., section 2, paragraph 1 of the Constitution says that the Secretary of State, Comptroller-General and Treasurer shall "hold their offices for the same time as the Governor."

HISTORY OF DEBT.—The details of Georgia's early history in debt-making will be found in the STATE AND CITY SUPPLEMENT for April, 1893, pages 165 and 166. The debt of the State is now being steadily reduced, $100,000 being devoted each year to that purpose. Moreover the State Constitution adopted in December, 1877, provides against the creation of any bonded debt "except to repel invasion, suppress insurrection, or defend the State in time of war," $200,000 being made the limit for floating indebtedness which may be temporarily incurred in case of deficiency in the revenues.

PAR VALUE OF BONDS.—The bonds of this city are in pieces of $100, $250, $500 and $1,000 each.

TAX FREE.—All of the city's bonds are exempt from city tax.

OPTIONAL.—None of the bonds are payable before maturity.

INTEREST is payable in Augusta, and all coupons are tax-receivable

TOTAL DEBT, ETC.—The city has no floating debt. The following statement shows Augusta's total bonded debt (including the water debt) on the first of January of each of the years mentioned except 1897, which is for May 1.

Years.	Bonded debt.	Years	Bonded debt.	Years.	Bonded debt
1899	$1,749,800	1894	$1,750,800	1883	$2,061.00
1898	1,750,800	1893	1,750,800	1880	2,039,000

1895	1,752,800	1891	1,748,800	1872	1,383,750

DEBT LIMITATION.—The Constitution of the State of Georgia adopted in 1877, limits municipal indebtedness in this State to 7 per cent on the amount of taxable property. Augusta's debt at that time was in excess of that limitation and still is. Therefore under no circumstances can the debt of the city be increased. No bonds can be lawfully issued except for the purpose of retiring old issues as they fall due. No obligation of this city has ever been repudiated or scaled.

CITY PROPERTY.—The city owns its water works, valued in 1899 at $700,000, the Augusta Canal, valued at $1,500,000, and $300,000 in other good real estate within city limits. The net annual income from water rents (canal and water works) was reported in 1899 as $83,634, and increases yearly from new industries and new extensions of water mains.

ASSESSED VALUATION.—The city's assessed valuation and tax rate have been as given below. In 1897 the assessed valuation of all real estate was reduced 10 per cent and in 1899 an additional 5 per cent was deducted.

Years.	Real Estate.	Personal Property.	Total Assessed Valuation.	City tax per $1000
1899	$13,536,602	$5,243,474	$18,780,076	.....
1898	14,321,235	5,076,043	19,397,278	$12·50
1897	14,146,688	5,050,010	19,196,698	12·50
1896	15,940,612	5,370,849	21,311,461	12·50

TOTAL DEBT, ETC.—The total bonded debt on January 1, 1899, was $1,275,000, of which $950,500 bonds were in State funds, leaving $324,500 bonds in the hands of individuals, and for the latter the Legislature of 1899 passed a bill providing for refunding at maturity. In addition to the bonded debt the State borrowed $100,000 in 1889 and $100,000 in 1891, under authority granted by the Legislature, and notes bearing interest at 5 p. c. were issued therefor; during 1898 notes to the amount of $75,000 were paid and the balance of the notes is held by State funds. The "common school fund" holds $100,000 and the "internal improvement fund" $25,000.

ASSESSED VALUATION.—The tax valuation of real estate (including railroads and telegraphs), personal property, total valuation and State tax rate per $1,000, are given below for the years indicated:

Years.	Real Estate, RR. & Tel'gh.	Personal Property.	Total.	State Tax per $1,000
1898	$78,660,9 0	$15,239,892	$93,900,823	$5·00

CITIES, COUNTIES AND TOWNS IN THE STATE OF ALABAMA.

ANNISTON.—O. Z. HENDERSON, Mayor. P. B. BROWN, Treasurer.

Anniston is in Calhoun County. The city defaulted in the payment of interest on the bonds now outstanding. A majority of the bond holders, having united and brought suit in the United States District Court, secured a judgment against the city for the payment of the overdue coupons. The Mayor and the Chairman of the Finance Committee were appointed a committee to arrange for an adjustment on the basis of a reduction of interest, but the bondholders refused to accept the plan offered.

BIRMINGHAM.—F. V. EVANS, Auditor. GEORGE EUSTIS, Treasurer.

Birmingham is in Jefferson County. The holders of Birmingham bonds were asked in 1895 to make a compromise with the city in the matter of interest payments.—(See CHRONICLE, V. 61, p. 338.) Under this agreement the city has been paying one-half of the interest on its bonded debt. In 1899 an amendment to the State Constitution was passed permitting an increase of one-half per cent in the tax rate, the proceeds to be applied exclusively to the payment of interest on the city's bonds and for the creating of a sinking fund. This will enable the city to pay full interest from January, 1900. See CHRONICLE, Vol. 69, p. 194.

MOBILE.—J. CURTIS BUSH, Mayor.

Mobile is the county seat of Mobile County. This city has paid its interest regularly since the compromise with its bondholders in 1881.

LOANS— NAME AND PURPOSE.	Interest.— P. Ct.	Payable.	Principal.— When Due.	Outstand'g.
Funding bonds of 1881	4-5	J & J	Jan. 1, 1906	$2,257,000
Subject to call at 100.				
Water and sewer bonds 1898	4½	J & J	Jan. 2, 1939	750,000

The Bienville Water Supply Co, the owners of the private water works, has sought to prevent the issue of the water bonds, but without success. See V. 68, p. 987 and 1143.

PAR VALUE OF BONDS—The bonds are for $500 each.

INTEREST is payable in New York City at the Mercantile National Bank; also in Mobile at the First National Bank. The bonds bear 4 per cent to Jan. 1, 1901; thereafter 5 per cent.

TOTAL BONDED DEBT Aug. 8, 1899, was $2,258,787, not including the water bonds. Of the funding bonds of 1881 about $250,000 stand better in the market than the rest because they are endorsed with the statement that they represent the purchase money for certain wharf property and are secured by a vendor's lien on said property. An Act of the Legislature requires the city to levy a tax of ¾ of one per cent on its valuation to provide for the payment of principal and interest of the bonds of 1881. After the payment of interest the surplus remaining from this tax is applied to the redemption of the bonds, after drawing by lot, at par, bonds so redeemed being canceled.

ASSESSED VALUATION for 1899 of real estate $11,306,461, personal property, $4,876,443; total, $16,182,904; 1897 was $15,716,922; for 1896, of real estate, was $10,303,555, of personal property, $4,252,872; total, $14,556,427

POPULATION—The population in 1890 was 31,076; in 1880 was 29,132; in 1870 was 32,034. In 1899 it was estimated at 45,000.

DEBT, RESOURCES, ETC.

Organized as a Territory (Act Apr. 7 1798)	*Apr. 7, 1798
Admitted as a State (Act March 1 1817)	Dec. 10, 1817
Total area of State (square miles)	46,810
State Capital	Jackson
Governor (term exp. Jan. 1900)	A. J. McLaurin
Secretary of State (term exp. Jan. 1900)	J. L. Power
Treasurer (term expires Jan. 1900)	A. Q. May

Legislature meets quadrennially in leap years the Tuesday after the first Monday in January, with a special session the second year following the leap year. Regular or quadrennial sessions are not limited, but special sessions are limited to 30 days, unless the Governor by proclamation shall extend the sitting, and only revenue and appropriation bills can be considered, "except such other matters as may be acted upon at an extraordinary session called by the Governor."

*This is the date of the organization of the old Mississippi Territory, which was divided up into two parts when the State was created.

HISTORY OF DEBT.—For history of the State debt of Mississippi see STATE AND CITY SUPPLEMENT of April 1894, page 170.

DEBT LIMITATIONS STATE, AND MUNICIPAL.—For debt limitations under the Constitution adopted May 12, 1898, see editorial columns of the State and City SUPPLEMENT for October, 1898. The limitation for municipalities is 10 per cent upon the assessed value of the property of the municipal corporation, parish or drainage district.

PAR VALUE OF BONDS—The consolidated 7s, stamped 4 per cent are for $100, $500 and $1,000. The Constitutional bonds for $5, etc. See CHRONICLE, Vol. 68, p. 987.

INTEREST is payable by Winslow, Lanier & Co., New York City and by Louisiana National Bank, New Orleans.

FISCAL AGENTS.—The fiscal agents of the State are the New Orleans Nat. B'k, the Louisiana Nat. B'k and the Hibernia Nat. B'k at New Orleans, and the Bank of Baton Rouge at Baton Rouge.

TOTAL DEBT—The subjoined statement shows Louisiana's total bonded debt on April 1, 1899.

	April 1, 1899.
Total bonded debt bearing interest.....	$10,877,800
Floating Debt—	
Baby bonds and certificates (act of 1880) exclusive of coupons.....	914,397

The baby bonds are 3 per cents and were due in 1886. They were issued to fund certain obligations of charitable institutions. No interest has been paid on them since January, 1885, but provision has been made to pay the principal of the bonds at not more than 50 p. c.—See CHRONICLE, Vol. 68, p. 987.

In September, 1889, it was discovered that a number of bonds had been fraudulently issued. Part of these were subsequently recovered, but $373,600 consols so issued ($303,600 being consols of 1874 and $70,000 Constitutional bonds) are still outstanding. The State considers them "null and void," and they are therefore not included in the amount outstanding above. There are also $421,935 fraudulently issued baby bonds outstanding.

There are moreover old bonds not recognized, and hence not fundable, amounting to $3,953,000. These include New Orleans Mobile & Texas 8 per cent bonds, endorsed, $875,000; 8 per cent State bonds issued to said road, $2,500,000; 8 per cent bonds issued to the N. O. Mobile & Chattanooga RR. $70,000; 7·30 per cent bonds issued to the Mississippi & Mexican Gulf Ship Canal Co. $260,000, etc., etc.

ASSESSED VALUATION—The assessed valuation is estimated at about 37 per cent of the actual value. The State tax (per $1,000) for 1898 was $6·00:

Years.	Total Assessed Valuation.	Years.	Total Assessed Valuation.
1898.....	$261,545,868	1885.....	$212,725,564

POPULATION OF STATE.—The population of Louisiana has been as follows in the years named:

1890.....	1,118,587	1860.....	708,002	1830.....	215,529
1880.....	939,946	1850.....	517,762	1820.....	152,923
1870.....	726,915	1840.....	352,411	1810.....	76,556

For 1898 the population is estimated at 1,250,000. The proportion of the colored population was 50·32 p. c. in 1890 against 51·46 p. c. in 1880. In number blacks were 562,893 in 1890; 483,655 in 1880; 364,210 in 1870; 350,373 in 1860; 262,271 in 1850.

NEW ORLEANS. { WALTER C. FLOWER, Mayor. JOHN S WATERMAN, Secretary. WM. S. DOUGLASS, Comptroller.

New Orleans is co-extensive with the parish of Orleans. An amendment to the Louisiana Constitution authorizing the city to refund its debt at a lower rate of interest was adopted in 1892, and up to July 1, 1899, the city had issued 4 per cent 50-year bonds to the amount of $9,008,500, thus enabling it to pay all its maturing loans and all those upon which it had option. The amendment provides that the interest tax collected in excess of requirements shall be divided between city schools and city improvements. The new Louisiana Constitution, in effect May 12, 1898, confirms these arrangements. On June 6, 1899, the city voted a special tax of 2½ mills for water, sewer and drainage purposes, intended to provide for an issue of from 12 to 16 millions bonds. As this requires an amendment to the State Constitution, the Legislature, in special session, passed a bill for its submission to a vote of the people of the State.

PREMIUM BONDS.—The premium bonds ($20 each) receive no interest till drawn by lot for payment, and then they receive principal with simple interest from July 15, 1875. They also get a premium if they happen to draw a prize, 2,352 prizes aggregating $100,000 being distributed yearly among the drawn bonds. From 1892 to 1895 inclusive 21,000 bonds (par value $420,000) were paid each year, in two instalments of 10,500 bonds each, on January 15 and July 15; since 1895 bonds to the number of 10,000 are paid semi-annually—20,000 bonds annually. There are two drawings to determine the bonds payable July 15 in each year, and they take place January 31 and April 15 next preceding. The drawings to determine the bonds payable January 15 take place July 31 and October 15.

The drawings to determine which bonds shall receive prizes (ranging from $20 to $5,000) occur just before the bonds are paid. Drawn premium bonds are receivable by the city for all dues, licenses, taxes and debts of any description at their face value and interest.

Legislature meets biennially in odd years on the 2d Monday in January, and sessions are limited to 60 days, unless by a two-thirds vote of the members a longer time is decided on.

HISTORY OF DEBT.—For history of the Arkansas State debt see STATE AND CITY SUPPLEMENT of April, 1894, page 173. By Act of Congress approved April 29, 1898, a compromise was effected between the United States and the State. In accordance with the terms of this settlement the United States authorities on May 27, 1898, delivered to the State Arkansas bonds and coupons amounting to $1,505,160, and carrying besides a large amount of overdue interest. This operation wiped out the entire debt of the United States against the State except $160,000 of bonds which the United States still holds. The State debt, therefore, now stands as follows:

PAR VALUE OF BONDS.—The bonds are all for $1,000.

INTEREST.—Interest on all the bonds is overdue—on most of the old bank bonds since July, 1842, on the funding bonds of 1869 and 1870 since 1873 or thereabouts.

TOTAL DEBT, ETC.—The subjoined statement shows the total bonded debt recognized by the State and overdue interest thereon on the first of October of the years given. In 1898, under a compromise made by Act of Congress, as noted above, a large amount of bonds and coupons held by the United States was delivered up, which accounts for the reduction shown below.

	Oct. 1, '98.	Oct. 1, '96.	Oct. 1, '94.	Oct. 1, '90.
Total bonded debt	$882,000	$1,576,000	$1,805,000	$2,092,100
Overdue interest	683,580	2,642,752	3,018,022	2,884,897
Total debt	$1,565,580	$4,218,752	$4,823,022	$4,976,997

In addition to the above indebtedness there was outstanding on Oct. 1, 1898, State scrip to the amount of $375,264 and sinking fund notes $105,022, making the total State indebtedness $2,045,866. All this scrip was called for payment Aug. 1, 1899, (to be barred if not presented for payment within six months), but up to Sept. 12, 1899, only $1,140 had been presented. The *bonded debt* on Oct. 1, 1898, was held as follows: by the United States $160,000 principal, $2,400 interest; permanent school fund, $275,000 principal, $193,785 interest; Sixteenth Section fund, $338,000 principal, $318,450 interest; Arkansas Industrial University, $42,000 principal, $44,970 interest; individual investors, $67,000 principal, $123,975 interest.

The details of the bonded debt and of the overdue interest given above are as they stood prior to the refunding of the recognized debt under the Act of 1899.

REFUNDING.—Under the Legislative Act of 1899 the entire debt (except the $160,000 due the United States) is to be refunded by an issue of 3 per cent 30-year bonds.

Up to Aug. 18, 1899, $1,222,500 new bonds had been exchanged for the holdings of the Permanent School Fund (including the Sixteenth Section fund) and for the holdings of private parties and the Arkansas Industrial University. Of this total only $45,000, principal and interest, represents the amount of the bonds held by individuals which had been funded up to that date.

The funding bonds of 1875 ("Loughboroughs") re-issued since 1885 have all been refunded under this Act.

Under notice of the Governor all bonds not exchanged must be presented before May 8, 1900.

The $160,000 of bonds still held by the United States, however, are to be paid off, one half on or before Sept. 1, 1900, and the other half Sept. 1, 1901.

DEBT NOT RECOGNIZED, HOLFORDS, ETC.—A summary o the unrecognized debt appears below. To aid in distinguishing th e Holfords from the valid bonds of the State it should be said that unde r

the act of April 6, 1869, two series of funding bonds were issued. One was dated July 1, 1869, and numbered from 1 to 1,000, inclusive. All of this series are printed in blue ink and are non-Holfords—in other words, are recognized obligations. The second series were dated January 1. 1870, numbered from 1 to 2,050, inclusive, and are printed in red ink, Of this series numbers 491 to 1,860, both inclusive, are the Holfords which constitute part of the unrecognized debt. The unrecognized debt is as follows:

LOANS— NAME AND PURPOSE.	Interest. P.C.	Interest. Payable.	Principal. When Due.	Principal. Outstand'g.

MUNICIPAL AND COUNTY BOND LAW.—A State law approved in 1893 has done much to widen the market for new Texas municipal loans. At present before any bond can be issued by a municipality or county it must receive the certificate of the Attorney General that it is a lawful obligation. It must then be registered in the office of the State Comptroller, and when the bond is so issued its validity cannot be questioned except on the grounds of fraud or forgery. The text of the law will be found in the State and City Supplement of April, 1895, page 178.

Where the fact is known to us we have marked with a star (*) in the returns below the issues put out *prior* to the enactment of the above law.

A law went into effect Aug. 26, 1899, compelling counties and incorporated towns and cities to submit propositions for the issuance of bonds (all except "funding bonds issued or to be issued of any valid outstanding bonds of said county, town or city;" also excepting bond issues for less than $2,000, when "issued for the purpose of repairing buildings or structures, for the building of which bonds are allowed to be issued,") to a vote of the qualified taxpayers before the issue can be submitted to the Attorney General for approval as required by the law of 1893—V. 69, p. 509.

POPULATION.—The population of Texas has been as follows:

1890.....2,235,523	1870.....818,579	1850.....212,592
1880.....1,591,749	1860.....604,215	

Of the total population in 1890 492,837 were blacks, which compares with 393,384 in 1880, 253,475 in 1870, 182,931 in 1860 and 58,558 in 1850. It will be observed that the proportion of the colored race has greatly diminished, the ratio for 1890 being only 22·04 per cent, against 24·71 per cent in 1880 and larger percentages in previous decades.

STORAGE BATTERIES AS AUXILIARY POWER.

Storage batteries some years ago seemed likely to be an important factor in the change of motive-power on the horse-car lines to mechanical traction, which was then being extensively undertaken. This expectation of their usefulness as a system of street-railroad motive-power has been unrealized. Many experiments were made under various conditions, but the success which seemed at one time likely was never attained, and the marvelous development of the overhead electric trolley construction soon made it improbable that any other system so cheap in first cost of construction and in operation, could be developed to compete with it. It is, in fact, only within the past couple of years that it has been possible to point to a road entirely operated by storage batteries, and only two or three such lines are now in operation in this country.

While the storage batteries have not succeeded in making an important place for themselves as a traction system, they have developed an important and widening field of usefulness in the operation of trolley roads. Few such companies are now without a battery of accumulators acting as a source of surplus power to meet emergencies and to relieve the load on the regular generating machinery when the heaviest demands are made on it.

Street railroad travel is so fluctuating and irregular that the amount of power which it is necessary to produce at the power-houses to furnish sufficient electric current to move the cars on the line constantly varies, not only on different days, but at different hours of the same day. The average travel, or—to put it in another form which will better suit the thought we have in mind—the average load upon the power-house machinery, as the result of the number of passengers moved, is much more than the minimum load during a given period, and much less than the maximum load. This inconstant loading of the engines and dynamos is a serious disadvantage to economical operation in many ways. A much more extensive plant is required than would be necessary if the loads were more evenly distributed; the machinery is apt to be dangerously overloaded during the period of greatest stress; the efficiency is unfavorably affected and depreciation is much more rapid than when the load can be so regulated that it is nearly uniform at all times during which the engines are in operation.

Dynamos cannot store the electricity they generate; therefore a street railroad has to provide a power equipment to meet the greatest possible demands upon it, so far as they can be anticipated. To do this it is usually desirable to put in a generating plant of considerably greater capacity than required by the maximum load usually developed in practice. This is in order to have a reserve power for sudden or unexpected demands, as the transportation of an unusual holiday crowd for instance, which may otherwise dangerously overload the equipment. Under these conditions a large part of the generating plant must remain idle most of the time. The periods of maximum loads are commonly of very short duration. They occur usually in the morning or evening, that being the time when, as a rule, traffic is heaviest, though special occasions will upset the regular rule. It is not only the hourly changes in the traffic and load which have to be cared for by the generators, but the momentary fluctuations as well.

This fluctuation in the load to be carried and the adaptation of storage batteries for carrying such varying loads has brought them into prominent and wide use in both electric-light and electric-railway power plants. They bring about a very decided economy in fuel, and in most cases make possible other large savings in conductors and minor expenses, besides relieving the generators, equalizing the load and allowing them to be used to their full capacity, thus making possible the installing of a smaller plant than would be otherwise neces-

sary. The batteries are charged when the load on the dynamos is light, and they discharge when the demand is heaviest and would otherwise tax or overload the generating plant. That is, power is accumulated when it can be produced most economically and stored until needed, and then it is discharged as required. Besides being used to take care of the peaks of the loads, and the fluctuations in the demand for power on the generators, storage batteries are also used in street-railroad work at the end of long feeders to keep up the pressure at such points and to obviate the necessity of sending the maximum current over the long feeders from the power-house. The economy of their use in this way is apparent.

While the uneven loading of the generators is destructive to their efficiency and hastens depreciation, the storage battery will stand overloading or extreme and rapid fluctuations without injury. Hundreds of horse-power can be silently stored and delivered in a very short period if required, without apparent change in the battery. The energy being chemical, its action will continue while the chemical elements remain. It will be seen from what has been said above that accumulators furnish a surplus reserve power obtained at the most convenient time and the lowest cost, and always ready for emergencies. Instantaneous failure in the delivery of energy is not possible with storage batteries, while their use precludes the overloading of the generators or the inability of a company to take care of extreme or sudden demands upon its power capacity.

TRACK-BONDING.

Many devices are in use to bond the rails of electric street roads at the joints in order to reduce the resistance to the return current at those places. It can hardly be said, however, that thoroughly efficient and satisfactory means have yet been devised for this purpose. The problem is a very important one, for the loss in the transmission of current by ineffective or improper bonding is one of the very serious leaks in the expenses of almost all electric railroad companies. More and more systematic study is being given to problems like this, and there can be no doubt that many opportunities are offered to a skilful manager to decrease his expense account by attention to such factors. The problem of the rail joint in street-railroad work presents two aspects; as a weak point in the track, and as a troublesome break in the continuity of the electric current occurring in every 30 feet of rail length, and therefore several hundred times in a mile of track.

The losses which occur in the transmission of power are often as large as the amount of power actually required to operate the whole number of cars in service on a line. Now, if twice the amount of power that does useful work has to be produced, the outlays for machinery and all the apparatus needed in the generation of power have to be doubled, and the running cost as well as the interest on the capital invested in those matters is twice as large as would be sufficient if the full efficiency of the current could be made available. Of course there is some unavoidable loss in transmission, as well as in the efficiency of the motors, etc., but that through faulty connections and poor rail-bonding, causing extra resistance, is greatly lessened, if not entirely eliminated, by proper construction. Besides the large waste of power through defective rail-bonding, it has other harmful results. We refer to the fact that the current which is not made to overcome the resistance of the rail joints distributes itself through the ground and attacks the gas and water pipes, causing serious deterioration in them and bringing up the possibility of the railroad being assessed in heavy damages for their destruction.

The most common method of rail-bonding is by the use of copper wires fastened near the end of each section of rail, carried around the joint and connected with the opposite end of the adjoining section. This, however, rapidly deteriorates in efficiency, and does not prevent a large loss of power at this point. The conductivity of such a bond, even under the best conditions, appears to be much less than the resistance of the break in the rail, and of course the surplus power is wasted. Other methods of welding do not seem to have given such thorough satisfaction that any of them is in very general use, although some, particularly the many varieties of cast welds, have obtained considerable favor. The idea of electrically welding the rails and doing away with rail joints altogether was much heard of a year or two ago, and the method used in various parts of the country. It was found, however, that the weld often broke open, and it is costly to renew it, and those companies which have the electrically welded joint in the track do not seem to be extending its use. The process of welding seems to decarbonize the rail ends and weaken them, so that even when the welds remain good, soft spots form in the head of the rail on each side of the joint.

Some officers speak with a good deal of favor of the plastic bond, the extra cost being considered as more than made up by the high powers of conductivity which it gives to the rail. The conducting material is a metal putty enclosed in an elastic covering placed between the web of the rail and the inner side of the angle plate, the contact surfaces being cleaned and then silvered; the conductor adheres so closely to these surfaces that water or other corroding substances cannot penetrate. The elasticity of the conductor prevents its being injured or broken by the jars of the wheels passing over the joints. Whatever the measure of success with this or other types of bonding, the importance of perfect bonds, always readily enough admitted in the abstract, is leading to careful analysis and investigation. A great improvement in bonding methods must follow as the result of the present active attention devoted to the subject.

In steam railroad service the full benefits of larger cars and engines cannot be realized until the track has been properly prepared for them, and in electric railroad practice the full economy of new and improved power-house machinery in reducing the cost of power is not obtainable unless the power when produced is carried with the least possible loss in transmission to the cars which are to be moved along the rails. The highest type of engines and machinery and the best arranged power-houses must be supplemented by good wire and track construction. In other words, it is not sufficient to produce power at as low a cost as possible, but it is necessary to also plan to use it in the most economical manner practicable, with the least diversion from its ultimate purpose. Otherwise a large part of the efficiency in power-production and saving in expense by lower costs will be lost.

The fact that much the largest share of the losses in the transmission of the power current is attributed to imperfect rail-bonding methods in itself shows the

need of more efficient devices to decrease the resistance at these points. The conditions of the problem do not seem to be so intricate as to preclude the development of some means of effectually stopping the losses.

OPEN AND CLOSED CARS.

Almost all the street railroad companies have a duplicate equipment; that is to say, they have closed cars for use in winter and the months of cooler temperature and open cars for summer service. This was as true of the old horse-car lines as it is of the most modern-equipped electric street railroad. Such a duplication of equipment seems in some sense a waste of capital, for at first glance it does not appear like good business policy to build twice as many cars as will be operated at one time and have the other half of the equipment idle in barns. The answer is, of course, that it would not be done if it were not found advisable and profitable in practice. The economy resulting from the use of the open cars during the months in which they can be run offsets the expense of duplicating the equipment.

The first advantage from the running of open cars is the greatly increased passenger capacity obtained per car unit; this adds directly to the revenue per car, while there is at the same time a considerable decrease in expenses. The labor charge is no greater than with a car seating a less number of passengers, but the investment in the original cost, the power consumed in operating, the wear of the rail, and other items of running expense, both in the aggregate and per car mile or per passenger carried, are each and all materially decreased. The greater attractiveness of the service with open cars encourages travel, and indeed there are few inducements offered by the street-railroad lines so potent in drawing passengers to their lines as the running of well-built and well-cared-for open cars. From the operating officers' standpoint, then, there are many reasons encouraging the running of open cars. Under the circumstances it is not surprising that the street-railroad companies are so anxious to keep these cars in service as long as the weather makes it possible to do so.

It would be valuable to have operating statistics which would exhibit the relative economy of the closed and open cars, but these, so far as we know, are not obtainable. The economy at any rate is very heavily in favor of the open type. The mere figures of the difference in carrying capacities indicate sufficiently how important a saving in expenses is obtained. A closed car, for instance, of about 28½ ft. in length over all, is approximately of the same length as an open car with seven or eight benches, the latter being about 27 ft. long. Its seating capacity, however, is from 35 to 40 passengers, while the closed car has seating accommodations for only 26 passengers. The weight of the car-body of a 7-bench open car is 5,500 pounds, or of an 8-bench car, 6,160 pounds, but the body-weight of the 28-ft. closed car is 7,126 pounds.

With a larger seating capacity and, therefore, a better revenue-producing ability, the dead weight of the open car is much less than that of a closed car of approximately the same length, the saving being equal to several thousand pounds per car. As the length of the car is increased the advantage in seating capacity and in the proportion of dead weight to the maximum load grows very rapidly. Most of the open cars which are now built to meet modern conditions have ten transverse seats and accommodate at least 50 people, while the closed car of the largest size, say 34 ft. over all, has a seating capacity for 16 less than this. But its maximum load is almost as great as that of the open type. Fully loaded with passengers, the weight carried on the rails is 34,000 pounds; that of the open car carrying 16 more seated passengers is only 34,700 pounds. The greatly increased carrying room of the open car is gained with a very material reduction in the dead or non-paying load; the body weight of a 10-bench open car is about 7,330 pounds and the axle, trucks and wheels weigh an additional 7,200 pounds; each of the corresponding figures for the closed car is larger, the dead weight of the car-body being from 7,825 pounds to 8,300 pounds, and the running gear, 6,750 pounds to 8,300 pounds.

CAR TRUCKS.

In the development of the electric railroad the car truck has received its fair proportion of attention. The progress in this feature of mechanical operation has been marked, and considering the rapidly-changing conditions of service and the severe demands made upon the truck designers and builders, they have been quite successful in keeping pace with the requirements set for them to fulfill. An easy-riding truck is essential to satisfactory railroad service, and this seems to have been secured in many of the types now offered to street-railroad managers. Indeed, in no other of the appliances used in street-railroad work is there the wide variety of design to choose from, with so much to be said for each type. The trucks used under the old horse cars were poorly designed and not constructed with any particular care, so that riding in such cars meant a good deal of jolting. Their short-wheel base gave to the cars a lurching motion which was anything but pleasant.

The widening of the wheel-base of the trucks used under the cars on the electric lines was very early undertaken, even before the cars themselves began to be lengthened. But this idea can only be pursued up to a certain point, for many electric railroads are built with curves of very short radii, requiring trucks of short-wheel base to carry the cars around them. Double-swinging trucks soon came into use as the cars increased in length. The increased weight, the speeds made and the loads carried, as well as the severe conditions of service in other respects, call for a high type of truck in design and construction. The design has to be most carefully worked out, so as to give the greatest possible strength within the prescribed limits, to secure easy-riding qualities, and the largest amount of possible tractive force for the weight.

A type of truck which is coming into general use on long cars where double trucks are necessary is the so-called maximum traction truck, of which there are many styles, differing more or less in details of construction, material, etc. The design is intended to place the greatest weight on the pair of driving wheels, and in most types these are of larger diameter than the second pair of wheels, which are chiefly trailers, though enough weight is distributed on this second pair to overcome any tendency to derailing from light loading. In such a design it has been possible to safely put 66 per cent of the weight on the driving wheels, while 70 per cent of the total braking force of the car is exerted on them. Malleable iron and cast-steel is almost wholly used in the construction of these trucks.

THE SERVICE OF STREET-CAR AXLES

The large proportion of axles on street railroad cars which are constantly being reported as breaking in service after a comparatively short use under the cars would seem to indicate that greater attention needs to be given to their designing and purchase. Street railroad service in some respects makes even greater demands upon the strength of axles than steam railroad practice, while it would seem as if the systematic specifications and tests to which axles are submitted before being accepted by steam railroads are not for the most part followed by street railroads. Many of the latter companies, to our knowledge, issue no specifications whatever, do not attempt to fix the chemical composition of the metal used, nor undertake to test any of the axles delivered to them by the manufacturers, considering it sufficient to determine the dimensions necessary to fit the axles to their equipment.

Such a practice hardly seems to indicate an appreciation of the importance of having axles of the best quality and workmanship to assure safety in running cars carrying large numbers of passengers. The past freedom of street railroads from serious accidents brought about by weak axles is not assurance of future immunity; the possibility of accidents can hardly be overlooked in view of the many axle failures reported, some of which are certain sooner or later to occur when unfortunate results will ensue. Axles should be put under cars only when their strength has been thoroughly tested, the composition and the quality of the metal ascertained and the methods of manufacture known. This implies careful inspection by qualified officers of the mechanical departments of street railroads, and we look to see the necessity of some such system generally recognized and enforced. Steam railroad officers specify and carefully inspect car axles, and the conditions on street railroads, with their high speeds and the heavy equipment now in service, are more closely approaching the conditions on steam roads and call for similar methods or procedure in many cases.

Street-car axles are now sometimes made of hammered iron, but more usually of cold-drawn or cold-rolled steel, in some cases forged or hammered steel being used. Iron axles, however, are hardly satisfactory for use on a road with a heavy traffic or large cars. The breakages are heavy and most companies which have had them under their cars are replacing them with some type of steel axle. Those of hammered or cold-drawn steel seem to have made the best record in service, but the reports as to the liability of breakages with these or cold-rolled axles are not at all uniform. Some companies find that there is a tendency in the latter to spring when the key seat is cut for the gearing.

The strength of an axle and its liability to breakage are not alone to be considered, but also its toughness and resistance to wear. The nearly continuous service to which they are subjected under street cars makes replacements an important matter to street railroad companies. The life, as well as the strength, of axles, is increased by enlarging their diameter, and there has been a marked tendency in this direction for some time past. The increasing weight of car bodies and of motors, even if it be distributed by putting an additional truck under a car, must be met in part by using larger axles. Some companies which have been using axles of 3⅝-inch diameter, a size very common, have found that the life of the axles was doubled by increasing the diameter to 3¾ inches. Four-inch axles, however, are being quite generally adopted, although in many cases the motors do not allow for the use of so large a size without expensive changes in the equipment. The weight of the motor, however, must in part be borne by the axles, and it is therefore a factor calling for increased strength. As it is carried without spring support, it increases the severity of the shock sustained by the axles at low joints or other inequalities in the track, and naturally adds to the danger of fracturing the axle.

It seems to be thoroughly established that far the largest share of axle failures occurs through poor design of the key way or because of square shoulders. The weakest point of the axles is undoubtedly at the key seat. A recent investigation into the causes of axle breakages brought out the fact that their failure was always at the key way in axles having a key seat with square ends. This weakness has been found to be easily remedied by cutting the key way with tapering ends or milling it with round corners. Companies which have changed the axle key ways in this manner have had excellent results, their axle failures being practically eliminated except from special causes. In key seats cut with square ends the weak section of the axle extends beyond the gear hub, while with tapered ends the weakest part is placed in the centre of the gear case hub, which, being set up tight, serves as a reinforcement where added strength will be most serviceable. If the axle design provides for a substantial fillet, instead of square shoulders, fractures at that point will not be troublesome.

STREET RAILWAYS.

SECURITIES AND REPORTS.

This is one of our four SUPPLEMENTS. In using the series it is to be remembered that they are inter-dependent publications, complete only as a whole. If utilized together, and with the fresh items of news the CHRONICLE contains from week to week, the investor will have all the information he needs in seeking a safe and remunerative lodgment for his money.

Street Railways forcibly illustrate this inter-dependence. Such roads obviously rely for their income, and therefore in great part for the value of their securities, upon the population and activity of the country they serve. Hence constant reference to our STATE AND CITY SUPPLEMENT will be found necessary by those wishing to purchase the stocks and bonds of street roads. Population, assessed valuation, tax rate, total debts of the counties, cities and minor municipalities are given at length in that publication, every one of which items is an essential fact contributing more or less to any correct estimate of the amount of suburban travel a given road commands.

The ABBREVIATIONS used in our Street Railway statements will be found explained in a table immediately following the last statement in this SUPPLEMENT.

A full INDEX which shows where each railway will be found is also given on the closing pages.

AKRON, OHIO.

POPULATION 1890 WAS 27,601; IN 1880 WAS 16,512; AND IN 1870 WAS 10,006.

NORTHERN OHIO TRACTION—Trolley.

Incorporated in Ohio, July 12, 1899, and is a consolidation of the Akron Traction & Electric and of the Akron Bedford & Cleveland. For statements of these roads at the time of consolidation see STREET RAILWAY SUPPLEMENT of May, 1899, pages 9 and 32. The Akron Traction & Electric was successor to the Akron Street Railway & Illuminating Company sold at foreclosure March 28, 1899, and then purchased by Henry A. Everett, of Cleveland, as preliminary to the present consolidation. Mr. Everett is also President of the Cleveland Electric Railway, known as the "Big Consolidated," with which system it is supposed close relations will be maintained.

BONDS—Of the $3,000,000 Northern Ohio Traction bonds, $500,000 will be reserved as an extension fund; rest goes to retire existing bonds.

PLANT—The old Akron Traction & Electric comprised about 22 miles of track in the city of Akron, Ohio, and suburbs, its line extending to Cuyahoga Falls and Silver Lake, and also had 14,000 incandescent lights. The Akron Bedford & Cleveland comprised 30 miles of track, its line extending from Akron to Cleveland. Combined mileage of Northern Ohio Traction, 52 miles.

ALBANY HELDERBURG & SCHOHARIE ELECTRIC RAILWAY—To be a trolley road.

ORGANIZATION, ETC.—Chartered Nov. 15, 1895, to build a road from Albany over the Helderburg Mountains to Middleburg and Schoharie, with a branch to Clarksville, making altogether 45 miles. Will also carry freight. Stock, authorized, was increased from $300,000 to $1,250,000 in March, 1899; par $100. Road was to have been constructed during spring of 1899, but now is not expected to be in operation until July, 1900. The Albany Construction Co. (93 State Street, Albany), which is building the road, increased its stock from $5,000 to $250,000 in April, 1899. In Aug., 1899, N. Y. Railroad Commission gave authority to issue $1,200,000 5 per cent bonds, $1,000 each, interest payable April and October.

OFFICERS—President, W. H. Burgett, Boston; Treasurer, Charles E. Bibber, 49 Federal Street, Boston; Secretary, W.H. Ervin.—V. 69, p. 383.

ALBANY RAILWAY—A trolley road.

ORGANIZATION—Chartered in 1863. Operates 6 lines through principal business streets to Troy, Cohoes, Watervliet and Rensselaer. Has no competition. The Watervliet Turnpike & RR. is leased for 999 years at $\frac{1}{2}$ of 1 per cent on $240,000 stock and 6 per cent interest on bonds; owns 16 miles. The Cohoes City Ry., which see (stock, $50,000), is controlled by parties interested in the Albany Ry.; the latter leases $2\frac{1}{2}$ miles of the track of the Cohoes City.

In August (1899) consolidation proposed with the Troy City Railway, the Troy & West Troy Bridge Co. and the Union Bridge Co. V. 69, p. 383.

ALLENTOWN & LEHIGH VALLEY TRACTION—A trolley road.

ORGANIZATION—Chartered May 31, 1893. Owns and operates 45 miles of electric road in the Lehigh Valley in Lehigh and Northampton counties, connecting the city of Allentown with the boroughs of Bethlehem, South Bethlehem, Fountain Hill, West Bethlehem, the Catasauquas and Copley, and the towns of Whitehall, Seigfrieds, Northampton, Aineyville and suburban Allentown. The combined population of towns and villages served by the system in 1890 was 77,315; in 1880 was 51,074. "Franchise runs for 999 years and gives exclusive rights to operate street railways in all said towns, boroughs and city;" company also owns 9 miles private right of way connecting certain of the above-mentioned towns. The control in the property is held through ownership of the entire capital stock of the companies below, which have been absorbed, their entire capital stock (except five shares of each to qualify directors, and a portion of the Electric L. & P. stock not owned) having been placed in trust for the benefit of security holders. Their corporate existence, however, is preserved for legal reasons, valuable rights being conferred by some of their old charters, including the right of eminent domain.

STOCKS OWNED—The capital stocks of the following companies are all owned, except a portion of the Electric L. & P. stock, viz.:

ROAD—At present embraces about 100 miles. Besides the city lines in Marion, Anderson, Muncie and Elwood, operates an interurban road from Anderson (via Linwood, Alexandria, Summitville, Fairmount, Jonesboro, Gas City and Soldiers' Home) to Marion, with a branch from Alexandria (via Orestes and Dundee) to Elwood. The interurban lines aggregate about 44 miles out of the 100 miles operated

Also has franchises and right of way from Anderson to Muncie, 18 miles (via Chesterfield, Daleville and Yorktown) in the one direction, and from Anderson to Indianapolis, 38 miles (via Pendleton, Ingalls, Fortville, McCordsville, Oaklandon, Lawrence and the State Fair Grounds) in the other. Construction under way on these lines and to be completed as soon as a large central power station, to be operated on the three-phase system with necessary storage batteries, can be erected at Anderson. The new station will replace the stations in the various cities and towns. Through the sale of its securities the company has the money on hand to build these extensions and also the new power station.

Population 1890 was 65,533; in 1880 was 37,409; and in 1870 was 21,789.

ATLANTA RAILWAY & POWER—A trolley road.

Organization—This is the old Atlanta Consolidated Street Railway, incorporated in 1891 and name changed as above July 1, 1899. A consolidation with the Atlanta Street Railway and the other street car lines in Atlanta had been arranged under the new name; but July 6 a restraining order was issued by one of the Georgia judges temporarily preventing further steps in the consolidation. It is reported that the new company will have $2,000,000 stock and $5,000,000 5 per cent gold bonds; of these latter $2,250,000 are to be reserved against outstanding issues, and $2,000,000 to be sold, while $750,000 were to be used only to build an electric-lighting plant and for extensions and improvements. Possibly the Georgia Electric Light Company may be acquired instead of building a new lighting plant.

The Trust Company of Georgia (Joel Hurt, Prest.) owns both the Atlanta Railway & Power and the Atlanta Railway.

A sharp contest is at present (Aug., '99) going on between the Atlanta Railway & Power Co., representing the consolidated lines of Atlanta, and the Collins Park & Belt RR., which has filed applications for franchises covering the principal streets of Atlanta.

ATLANTA ELECTRIC RY.—A trolley road.

Organization—Operated by Atlanta Consolidated for a division of receipts. Stock was $100,000 and first mortgage gold coupon bonds $30,000, due in 1906; miles of track, 3, and leases Lakewood Park. Sold at foreclosure in 1898, but in July, 1899, motion for re-sale pending; motion opposed by the Consolidated on the plea that it held an option to purchase property.

ATLANTA RAILWAY.—A trolley road.

Organization—This company was a reorganization July 1, 1895, of Atlanta City St. Ry. and the *Atlanta Traction Co.*, foreclosed in 1895.

In Nov., 1898, a Baltimore syndicate, headed by Middendorf, Oliver & Co., purchased entire stock and bonds; subsequently this syndicate sold their interest to parties identified with the Atlanta Consolidated Street Railway, and a general consolidation of the street car lines of Atlanta has been arranged, as noted above, under the name of the Atlanta Railway & Power.

SYSTEM

OF BALTIMORE

the same could be converted into income bonds, bearing 4 per cent if earned and payable at the option of the company after March 1, 1929. The option of conversion has been exercised to the extent indicated above.

DIVIDENDS.—Dividends of ½ of 1 per cent were paid June 15, 1899, on both the income bonds and the preferred stock for the three months ending May 31, 1899, the payment on the stock (but not on the bonds) being subject to a deduction of one quarter of one per cent for taxes.

ROAD—The track mileage of the various roads on May 1, 1899, was about as follows: Balt. Consol. Ry., 207 miles, not including Ellicott City branch, completed in Dec., 1898; Baltimore City Passenger Railway, 56½ miles; Central Railway, 36¾ miles; Baltimore Middle River & Sparrows Point, 14½ miles; Baltimore & Northern, 38½ miles; total, 353 miles.

BAY CITY, MICH.

POPULATION 1890 WAS 27,839; IN 1880 WAS 20,693; AND IN 1870 WAS 7,064.

BAY CITIES CONSOLIDATED RAILWAY—A trolley road. Combined population of territory supplied in 1898 (estimated) about 45,000.

No coupon on the $381,000 1st consols has been paid since that for Sept. 1, 1895. The bondholders' committee, of which M. P. Heraty is Chairman, represents about 80 per cent of the outstanding issue. The committee states that a large expenditure of money is necessary to make needed improvements. As the stockholders are unable to supply this money, it will have to be furnished by the bondholders, either through the further surrender of coupons for a series of years or by direct contribution. The committee says the mortgaged property can ultimately be made valuable, but drastic measures, it thinks, may be necessary.

RECEIVERSHIP.—In July the property was placed in the hands of M. P. Heraty of Philadelphia and J. C. Weadlock of Bay City, as receivers —V. 69, p. 128.

BOSTON, MASS.

POPULATION 1890 WAS 448,477; IN 1880 WAS 362,839; AND IN 1870 WAS 250,526.

BOSTON ELEVATED RR.—

ORGANIZATION—The bill chartering this company was signed by the Governor of Massachusetts June 10, 1897. A portion of the elevated road must be built within three years (see V. 64, p. 329) upon the locations originally asked for, and thereafter the Aldermen may grant additional locations. The bill provides for an extensive system of free transfers. In addition to regular street railway taxes the company is to pay on all lines owned, leased or operated by it ⅞ of 1 per cent of gross income and a sum equal to the excess of the dividends over 6 per cent. On the other hand, its charter is understood to "grant it exemption from reduction of fares, and also other immunities."—(See Mass. RR. Commission, V. 65, p. 1223.) In August, 1898, the plans had been approved by the Massachusetts Railroad Commissioners, cars to be run with electricity by the "third rail" system.—V. 67, p. 318. Ground was broken early in 1899, and much of the structure will be completed by the fall.

Lease of West End.—The West End Street Ry. is leased until June 10, 1922, at 7 per cent per annum on its common and 8 per cent on the preferred stock, in addition to all interest, rentals, etc. Possession of West End was taken Jan. 1, 1898. See lease in V. 65, p. 1223.

COST—Engineer Kimball (of the company) estimates the average cost per mile of construction, including foundation, rails, &c., but not including stations or electrical equipment, at $296,949, and the total cost of construction covering a distance of 10·29 miles is figured at $3,055,605; equipment, terminals, stations, etc., at $3,890,000; land damages at a maximum of $5,039,786, minimum estimate $3,120,491.

* Under contract to lease.

The foregoing comprise electric street railway lines in Eastern Massachusetts and Rhode Island. The companies given cover the greater part of the street railway mileage north of Boston as far as Nashua, N. H., and Newburyport and Gloucester, Mass., and south as far as Fall River, Mass., and Newport and Providence, R. I., connecting directly with the street railway system of Boston. Various electric lighting companies doing business in the same section are also included. It is stated that "the majority and in most instances practically all the stock" of the companies in the above list is held.

STOCK & BONDS.—The association has no direct bonded debt. Its share capital is represented by certificates of participation, which will give the owners a proportionate interest in the shares held by the trustees. The prospectus says: "These certificates will represent practically the entire capital stock of the above-named companies, as well as sufficient cash to take up the floating debts and provide needed improvements." Both classes of shares are reported exempt from taxation in Massachusetts.

The Brooklyn Rapid Transit Company in April, 1899, also acquired, through one of its constituent companies, all the franchises and properties of the former Brooklyn & Brighton Beach RR. Co., and this has now been converted into an electric road. The company has also leased for the period of 999 years the Prospect Park & Coney Island RR. Co., the New York & Coney Island RR. Co. and the Prospect Park & South Brooklyn RR. Co. Contract has also been made with the Reorganization Committee of the Kings County Elevated Railway Co. and Fulton Elevated Railway Co. whereby all the preferred and common stock of the newly-organized company which is to succeed to the properties, privileges and franchises of the old companies is to be exchanged for $2,000,000 of the stock of the Brooklyn Rapid Transit Co. Under the Reorganization Committee's plan the capital stock of the new company will be $2,800,000 preferred and $6,000,000 common, and the company will have an authorized bonded indebtedness of $7,000,000 in 4% bonds, of which only $5,000,000 will be issued, making the total fixed charges of the new company as acquired by the Brooklyn Rapid Transit Co. $200,000 per annum.

In April, 1899, stockholders were given the privilege of subscribing to the extent of 7% of their holdings for Brooklyn Rapid Transit stock at par, the proceeds of this issue of stock being intended to be used in the acquisition of the Brighton Beach Railroad properties and the electrical reconstruction of those properties, as well as of the leased properties of the Prospect Park & Coney Island RR. Co. and allied lines. The total amount thus issued was $2,713,900,

The *Brooklyn City RR. Co.* is held under a 999-year lease, dated Feb. 14, 1893, guaranteeing all charges and 10 per cent dividends on $12,000,000 of stock. The lease is nominally to the Brooklyn Heights RR. Co. but practically to the Brooklyn Rapid Transit Co., since that company owns the entire capital stock of the Brooklyn Heights Company and guarantees payment of dividends to lessor, as said above. In 1898 the Heights Company leased also the Brooklyn Queens County & Suburban RR., theretofore operated separately. On April 1, 1899, the Heights Company leased the Brooklyn Union Elevated RR. Co. for one year for $100,000 and fixed charges, and also on the same date the Nassau Electric RR. for one year for $150,000 and fixed charges.

In the reorganization of Long Island Traction the old $30,000,000 stock paid an assessment of $10 per $100 share, the old stock being reduced to $20,000,000, and $7,000,000 of 5 per cent bonds being authorized, against $3,000,000 of Long Island Traction.

In his annual report President Rossiter estimates the entire net fixed charges for the year beginning July 1, 1899 (including the Kings County Elevated), at $3,406,000, and says gross earnings will be *not less* than $12,000,000.

STOCK—Stock authorized is $45,000,000; issued $43,000,000, $2,000,000 being reserved for acquiring Kings County and Fulton Elevated RR. Cos. as per agreement with Reorganization Committee. The stock is held in a voting trust for five years, the trustees being Anson R. Flower, F. P. Olcott and A. N. Brady.

The Rapid Transit stockholders voted Feb. 11, 1899, to increase the stock from $20,000,000 to $45,000,000.—V. 68, p. 185, 329.

Bonds—Of the $7,000,000 fifty-year gold 5s of 1895, $1,875,000 took up collateral trust notes, $3,000,000 went to stockholders for the assessment; balance for future requirements of the road. For description of property covered by the mortgage see V. 62, p. 1138. The Central Trust Co. is mortgage trustee. In December, 1897, bonds for $1,217,000 were listed, issued for purchase of Sea View RR. and for extensions and improvements.—V. 65, p. 1219. In October, 1898, $227,000 additional were listed. See application in full, V. 67, p. 904.

Brooklyn City RR. mortgage of 1891 is for $6,000,000 and is a first lien on the old Brooklyn City road and a consol. lien on the lines acquired by consolidation in 1890. Of the $6,000,000 issued, $4,373,000 are in the hands of the public and the balance is held in the guaranty fund.

The total authorized issue of first consolidated mortgage gold 5s of the Brooklyn Queens County & Suburban RR. is $4,500,000, of which $1,666,000 are reserved for extensions, on which they will be a first lien Of the $2,834,000 outstanding, $2,255,000 in 1898 were endorsed with the guaranty of the Brooklyn Heights RR. Co. as to principal and interest, and in January, 1899, provision was made for guaranteeing the remainder on the payment of ten dollars per bond Both B. Q. C. & S. loans are subject to call in 1916.

The Sea Beach Ry. 1st 4s also are guaranteed as to principal and interest by the Brooklyn Rapid Transit Co.—V. 65, p. 1219.

MILEAGE—The system August 1, 1899, included:

	Miles.		*Miles.*

The company the present year (1899) has opened several new routes to Coney Island, among them one from Hamilton Ferry to the Island, another from the Bridge to Brighton Beach (surface route); also from Broadway Ferry to Brighton Beach, besides beginning the running of through trains to Manhattan Beach via the Elevated road.

GENERAL FINANCES—During the year ended June 30, 1899, the Company added to its property 238 miles of track, elevated and surface, and the acquisition of the Kings County Elevated will give 22 additional miles. All of the properties thus acquired have been secured through the issue of new Brooklyn Rapid Transit stock and entail no new fixed charges for such purchase except the rental to be paid for the Prospect Park & Coney Island RR. ($40,000 per year) from the time the lease of that property went into effect—June, 1899. Moreover, all the properties whose stocks have been acquired by the B. R. T. Co. have recently had their fixed charges greatly reduced by process of reorganization.

REPORT—The annual report will be found in the CHRONICLE of August 26, 1899. The method of operation is to have all the railroad companies leased to the Brooklyn Heights Railroad Company, which is the operating company, and the income of the Brooklyn Rapid Transit Company consists of the surplus profits of the Brooklyn Heights Company, and such moneys as it may receive from the stocks and bonds held by it. The table below gives the operating statement of the Brooklyn Heights Company for the year ending June 30, 1899, with comparison for the preceding year, and includes the operation of the Brooklyn Heights Rai road Company, the Brooklyn Queens County & Suburban Railroad Company, the Brooklyn City Railroad Company and the Sea Beach Railway Company for the entire fiscal year, and of the Brooklyn Union Elevated Railroad Company and Nassau Electric Railroad Company for three months only of the fiscal year. For purposes of better comparison the figures of the leased companies for the corresponding period of the preceding year are combined with those of the Heights Company, although they were not at that time a part of the Brooklyn Rapid Transit system.

The company's trains have been run across the Brooklyn Bridge since June, 1898, (V. 66, p. 1187), and on July 1, 1898, the operation of the Bridge railroad was commenced by the Receiver under a new contract. A share of this contract is assumed by the Kings County Elevated. See terms of contract in V. 67, p. 27, 426. The main lines are expected to be entirely equipped with electricity (third-rail system), during 1899.—V. 66, p. 27. In July, 1899, the running of electric trains to Coney Island (via the Fifth Ave. branch and the Prospect Park & Coney Island) was begun.—V. 69, p. 129.

In March, 1898, an agreement was made with Long Island RR. providing for joint construction of connecting line at East New York and running of through trains from Jamaica to Brooklyn Bridge and from Rockaway Park to Broadway ferries. Construction begun in Nov., 1898, and work completed in February, 1899.—V. 67, p. 1054. Rockaway line operated since July, 1898, and line to Jamaica opened in Oct., 1898. V. 67, p. 124, 175, 954.

Annual Report—Report for year ending Dec. 31, 1896, in V. 64, p. 80. Increased earnings in 1895 were due to strike on trolley roads.

(2) NASSAU ELECTRIC RAILROAD.—trolley road.

Organization—Chartered March 13, 1893, under the laws of New York. Opened in July, 1895, and in April, 1896, leased the Atlantic Avenue RR., etc. Cars commenced running over the Brooklyn Bridge Feb. 15, 1898—see V. 66, p. 383. In Jan., 1899, sale of Nassau Electric stock, formerly held by Johnson Brothers, R. T. Wilson & Co. and others, was made to Brooklyn Rapid Transit, and subsequently the latter also acquired the holdings of Patrick H. Flynn. As stated above, the Rapid Transit Company owns $8,499,716 out of the $8,500,000 common stock of the Nassau Electric and $6,052,000 out of the $6,500,000 preferred stock. The Rapid Transit assumed the management of the road on May 1, 1899.

The Nassau Electric Railroad and its subsidiary lines in 1898 underwent recapitalization, by which provision was made for the retirement of all of the outstanding securities of the various companies controlled by it, viz.: The Nassau Electric Railroad Co., the Atlantic Avenue Railroad Co., the Brooklyn Bath & West End Railroad Co., the Kings County Traction Co.—see V. 66, p. 39, 183. The assets of the Kings County Traction Co. were purchased at public sale in July, 1898, by the syndicate conducting the consolidation.—V. 67, p. 74, 125. Certificate of merger of Atlantic Ave. RR. and United RR. was filed on Jan. 26, 1899.—V. 68, p. 283, 821.

CHICAGO UNION TRACTION.—

ORGANIZATION.—Incorporated in Illinois June 3, 1899, by the Elkins-Widener-Whitney syndicate and purchased for $10,000,000 cash the holdings of stock of Chas. T. Yerkes in the West Chicago and North Chicago roads. These holdings, it is understood, consisted of $3,200,000 West Chicago stock and $2,000,000 North Chicago stock. Subsequently the two systems were leased, the West Chicago for a yearly rental equal to 6 per cent on the stock and the North Chicago for a rental equal to 12 per cent on the stock, the leases being dated June 1, 1899. The Union Traction Company's holdings of stock of the two roads are to remain in trust "for all time" as security for the leases.—See V. 68, p. 1131.

STOCK AND BONDS.—The $12,000,000 preferred stock was subscribed for at par, a bonus of 50 per cent, however, being given in common stock.—V. 68, p. 1225. There was thus $2,000,000 cash left after the payment of $10,000,000 to Mr. Yerkes, and this $2,000,000 is to be spent for improvements and extensions of the lines acquired.

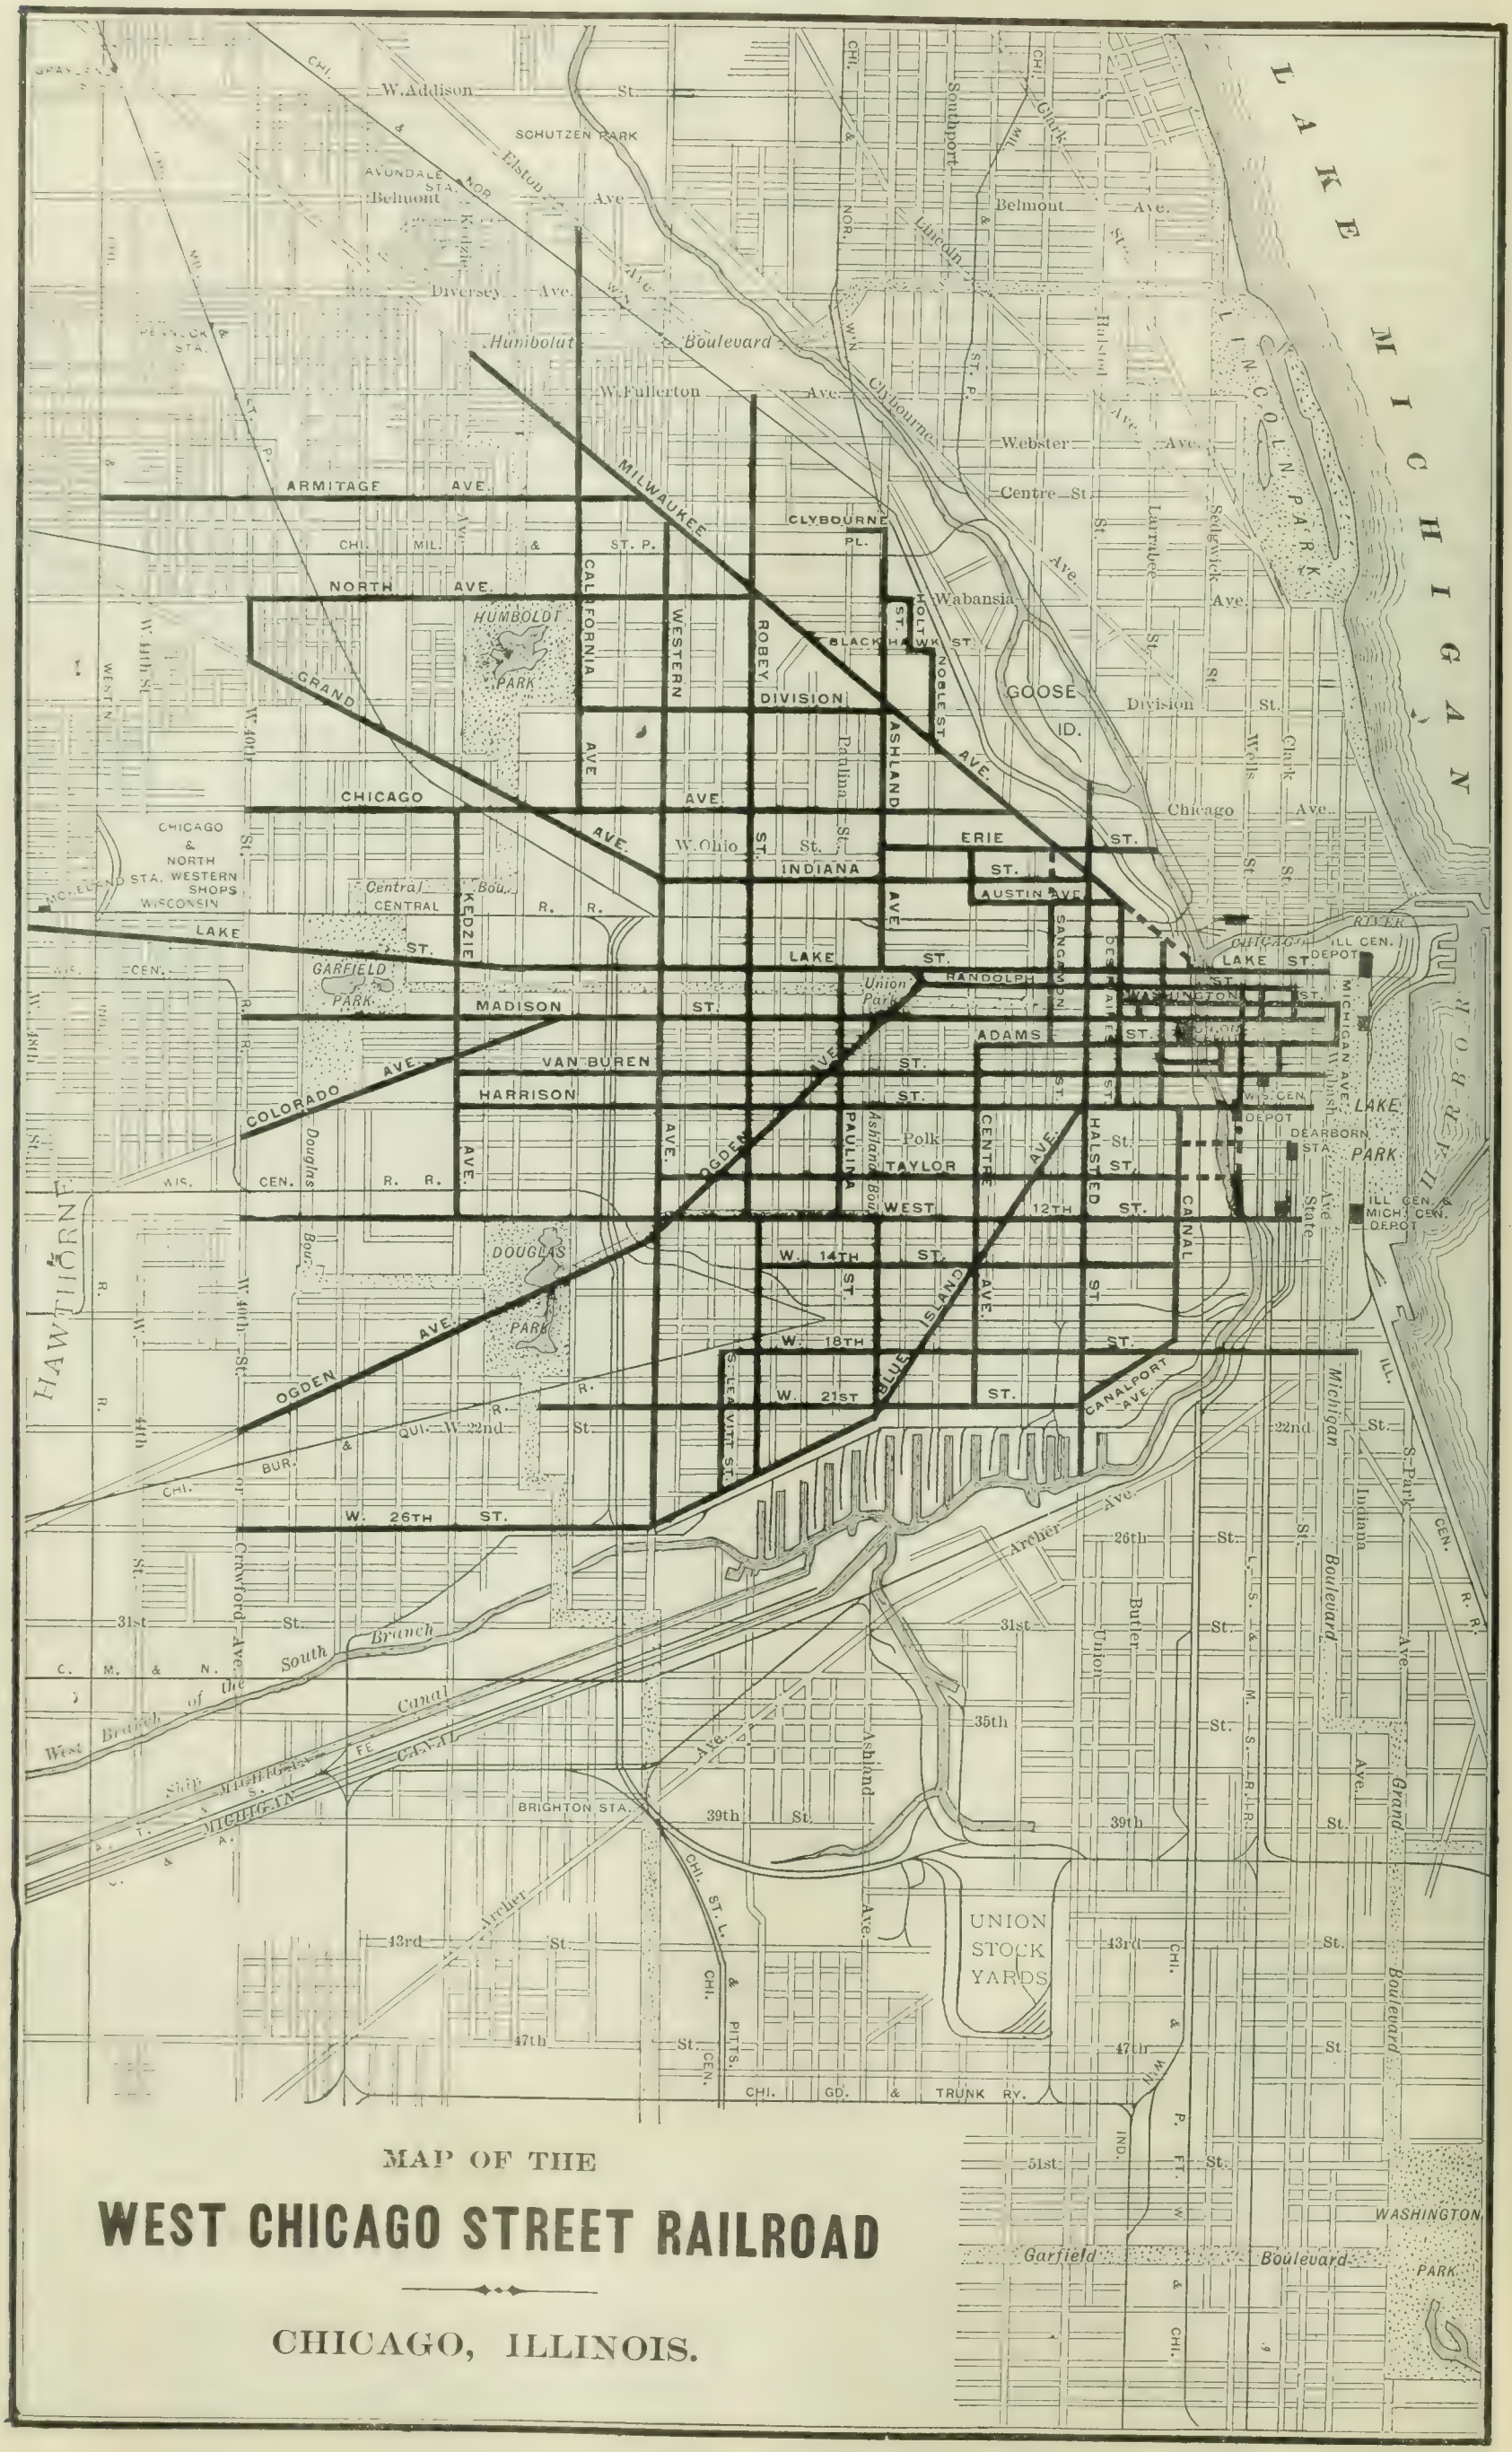
(1) NORTH CHICAGO STREET RAILROAD.

ORGANIZATION—Incorporated under the laws of Illinois in 1886 "to construct, lease, purchase, or otherwise acquire horse, dummy and street railroads in Chicago and Cook County, Illinois." It controls the surface street railroad system in the North division of the city of Chicago, through the purchase in 1886 of 2,501 shares out of a total of 5,000 shares capital stock of the North Chicago City Railway Co., said road being leased for 999 years from 1886. Franchise 99 years from Feb., 1865. Annual payment to city for electrical franchise, $10,000; car license, $50 per car per annum, 13 trips per day to a car.

In February, 1899, all the suburban leased lines of the North Chicago and West Chicago systems were united under the name of the Chicago Consolidated Traction, which see.



In June, 1899, the North Chicago was leased to the Chicago Union Traction for a yearly rental equal to 12 per cent on the stock.—V. 68, p. 1131.

(2) WEST CHICAGO STREET RR.—*(See page 28.)*

ORGANIZATION—Incorporated July 19, 1887 under laws of Illinois.

LEASES.—Control of the *Chi. W. Div. Ry.* (96 miles track) was acquired through purchase of a majority of its shares (6,251) of capital stock, and the road leased for 999 years from Oct. 20, 1887, at an annual rental of $35 per share, the principal and interest of its bonds being assumed—see V. 65, p. 281. Of the *Chicago Passenger Ry. Co.* (34 miles track) stock, the Chi. W. Div. Ry Co. owns a majority, and the road is leased (on March 15, 1889; extended in 1897 for 50 years to the West Chicago Street RR. The West Chicago St. RR. Co. agrees to pay 5 per cent a year on capital stock of the Passenger Ry. Co. and to guarantee its fixed charges. Formerly leased Cicero & Proviso St. Ry. and Ogden St. Ry., but these roads have now passed to the Chicago Consolidated Traction.

In Feb., 1899, all the suburban leased lines of the North Chicago and West Chicago systems were acquired by the Chicago Consolidated Traction.—V. 68, p. 86, 769.

In June, 1899, the West Chicago was leased to the Chicago Union Traction for a yearly rental equal to 6 per cent on the stock.—V. 68, p. 1131.

Bonds.—Of the $12,500,000 consols under the mortgage of November, 1896, $3,969,000 can be issued only on retirement of an equal amount of the outstanding first mortgage 5s, and $2,500,000 for improvements and extensions at 75 per cent of the cost thereof. In February, 1897, a sale of $6,000,000 of the consols was made to a syndicate; the proceeds were used to retire $2,000,000 debentures in April 28, 1897, and the floating debt, and bonds are reserved to retire the $767,000 debentures subject to call in 1900. The mortgage covers 202·7 miles of track, including West Chicago Street RR., 72·7 miles (owned); Chicago West Division Ry., 96 miles (leased), and Chicago Pass. Ry., 34 miles (leased). See V. 64, p. 176, 333, 472. Chicago Pass Ry. consol. 5s are reserved to retire the 1st and 2d 6s.—V. 65, p. 235.

Stock.—Recent issues—April, 1, 1893, $1,000,000; Aug. 1, 1893, $1,100,000, and Nov., 1893, $1,089,000.

Chicago West Division Stock is $1,250,000, of which $625,100 is owned by the West Chicago Street Co., the remainder ($624,900) being guaranteed 35 per cent yearly under the lease. *Chicago Passenger Railway* stock is $2,000,000, having been increased from $1,000,000 in 1896, but to July 1, 1897, only $1,116,300 stock had been issued. The West Chicago St. RR. Co. guarantees, under operating contract 5 p. c. on original $1,000,000 stock, of which $730,000 is owned by West Chicago, as is also $730,000 of the issue of 1896.

GENERAL FINANCES.—Application dated June 29, 1897, for listing the stock and bonds on the N. Y. Stock Exchange was given in full in V. 65, p. 281, including general balance sheet of June, 1897, and detailed information regarding the leases and finances of the company.

Interest payable at Northern Trust Co.

Trustees of 1st mortgage were Farmers' Loan & Trust Co. of N. Y. and American Trust & Savings Bank, Chicago. In June, 1898, the Equitable Trust Co. was appointed in place of Farmers' Loan & Trust Co., the latter having been held incompetent to act, but case appealed to U. S. Court.—V. 66, p. 1237; V. 67, p. 75.

Note.—The total issue of first mortgage bonds was $7,574,000, of which in 1898, $881,000 had not assented to readjustment plan of 1895. Of these last $102,000 were in the treasury, while $605,000 held by Mr. Zeigler are still in litigation and receiving no interest; the balance, $174,000, is allowed to receive interest at 3 per cent per annum, or 60 per cent of face of coupons. Holders of first 5s who assented to plan received in exchange for their principal 60 per cent in guaranteed debentures (total issued $4,015,200, of which $102,000 in treasury), and 15 per cent in incomes (total issue $1,003,800, of which $48,000 in treasury).

Stock—In May, 1896, trust certificates representing Lake Street stock for $5,009.300 were offered to stockholders of Columbia Construction Co. at $18·90 a share; the stock itself will be held in a ten-year voting trust.—V. 62, p. 908.

Bonds—The gold debentures are secured by deposit of the old bonds with the Northern Tr. Co.; their p. and i. are guaranteed by the Northwestern Elevated RR. Co. When all the old bonds have been exchanged, they will be reissued to the extent of 60 per cent, and the balance canceled.

ROAD—Owns in Chicago a double-track elevated railway, Market Street from Madison Street to Lake Street, thence to the Western city limits, being 6 2-5 miles, equal to 14¼ miles of single track. Connects with Suburban RR. for traffic outside the city. V. 65, p. 236. Trains began running over the Loop line in March, 1897. In 1898 acquired franchise for 1 mile road elevated and 1½ miles surface, which will be built by the Cicero & Harlem Ry. Co.—which see below; this piece was opened April, 1899.

ORGANIZATION—A consolidation in February, 1898, of the Dallas City Street Ry. and Queen City Ry. sold in foreclosure. In March, 1899, G. M. Van Ginkel purchased the road in the interest of a Des Moines, Ia., and New York syndicate. The road has, exclusive of switches, 34 miles of track. Stock authorized, $1,000,000. A mortgage for $800,000 securing, it is understood, 20-year 5 per cent bonds was made in July, 1898, to the Union Trust Co. of St. Louis as trustee. All the authorized stock and bonds were in Nov., 1898, reported to be outstanding as collateral for a loan. In March, 1899, property was conveyed to E. J. Gannon, trustee, to secure a note for $365,000 held by J. B. Wilson, bearing 10 per cent interest and payable Sept 15, 1900. At the same time the Queen City Road was conveyed in trust to secure a note for $25,000, bearing 10 per cent interest, and due Sept. 15, 1900. In this latter case the pledge is subject to the lien of the first note. Presid't, G. Van Ginkel; Vice-President, J. B. Wilson; Secretary and Superintendent, Edward T. Moore.—V. 66, p. 185; V. 67, p. 176; V. 68, p. 618, 670.

DETROIT, MICH.

POPULATION 1890 WAS 205,876; IN 1880 WAS 116,340; AND IN 1870 WAS 79,577.

On the initiative of Gov. Pingree efforts have been making to bring all the Detroit roads under municipal ownership, the Michigan Legislature having passed a bill for that purpose in March, 1899. But various obstacles were encountered, and finally on July 5 the State Supreme Court declared the whole scheme unconstitutional. President Tom. L. Johnson of the Detroit Citizens was active in attempting to carry the plan into effect, and on July 14 3-cent fares were announced on the various roads as an "object lesson" of what might be expected as the result of municipal ownership through the formation of the proposed "Detroit Municipal Railway." On July 21, however, the 3-cent fares were abandoned. On Aug. 11 the Detroit Common Council passed ordinances to compel the Detroit Citizens and the Detroit Fort Wayne & Belle Isle companies to sell eight tickets for a quarter, the Detroit Electric being already required by its charter to sell tickets at this rate good until eight o'clock at night. V. 68, p. 670, 926, 1023, 1132; V. 69, p. 26, 79, 179, 384. The Detroit Citizens has brought suit to restrain the enforcement of the ordinance.

ALBANY & HUDSON RAILWAY & POWER

—Is a consolidation of Hudson Street Railway, Hudson Light & Power Co, Kinderhook & Hudson RR., Greenbush & Nassau Electric, Citizens' Electric Light & Power of Hudson and Kinderhook Power & Light Co. Intention is to build an electric line between Hudson and Albany, to be operated by the third-rail system; the new company, it was reported would build a 10-mile connecting link between Niverville and Albany and also a new steel bridge at Rensselaer 1,900 feet long to cross the New York Central and Boston & Albany railroads. It will also supply light and power along its route. Active operations were to be begun at once. Has purchased water power at Stuyvesant Falls and other places. William F. Sheehan, A. M. Young, Charles Cooper and others are said to be interested. Stock authorized, $2,500,000; present issue, $2,000,000. Bonds, 1st mortgage 40-year 5 per cent gold (M. & S.) $2,500,000, have been authorized; present issue, $2,000,000; Colonial Trust Co., New York, trustee. The street railways include 35 miles of main line and 4 miles of sidings.

HUDSON STREET RAILWAY—

ORGANIZATION.—Incorporated in 1897. To be merged in Albany & Hudson Railway & Power (which see), and all the securities of the Hudson Street Railway will be retired. As part of the general scheme of consolidation, the Hudson Light & Power Co. in June, 1899, changed its name to the Hudson Light & Power & Railroad Co., so as to absorb the Hudson Street Railway. The Kinderhook & Hudson was at the same time merged in the company.—See V. 68, p. 1181.

INDIANAPOLIS STREET RAILROAD.—A trolley system.

ORGANIZATION.—Organized in 1899 and after acquiring the Citizens' Street RR. of Indianapolis and the City Railroad made a contract with the City of Indianapolis agreeing to surrender the rights and franchises of both companies and accept a new franchise running only thirty-four years. The contract also provides that cash fares are not to exceed five cents, with free transfers, and tickets are to be sold at the rate of six for twenty-five cents and twenty-five for one dollar.

The company also binds itself to pay over to the city (which is to expend it on the public works) the sum of $30,000 yearly, from 1899 to 1925, and $50,000 yearly, from 1926 to 1932, inclusive, the contract expiring in 1933—see V. 68, page 723.

Under the plan of consolidation the stock of the Citizens' RR. was exchanged for Indianapolis Street Ry. securities, but the bonds of the Citizens' RR. remained undisturbed. Citizens' stockholders got a $1,000 4 p. c. gen. mtg. bond of the Indianapolis Street RR. and $200 in Indianapolis Street RR. stock for every 20 shares of Citizens' stock. As to the three-cent fare case, which the U. S. Court of Appeals decided in favor of the Citizens' Co. in Dec., 1897, see SUPPLEMENT of Nov., 1898, and V. 64, p. 842, 1180; V. 65, p. 51, 181, 1172.

The Company besides its street railway system owns and operates electric-light and power works (costing $1,625,938) under franchises said to be exclusive; these include all the electric light companies (with the single exception of one small plant), among others the Edison Electric Illuminating Company, the Milwaukee Electric Light Company, the Badger Illuminating Co. and the Milwaukee Arc Light & Power Co. Was furnishing in April, 1899, 57,518 incandescent lamps, about 1,244 h. p. in motors and 2,000 arc lights. Owns the stock of the Milwaukee Light, Heat & Traction Co. See its statement below.

The ordinance requiring the sale of tickets at less than five cents was declared invalid and a permanent injunction restraining its enforcement was served on July 1, 1898.—V. 66, p. 1089; V. 67, p 74, 126. In August, 1899, made proposition of settlement to the city, offering a gradual reduction of fares to a 4-cent basis on condition of a ten-year extension of old franchises and the granting of some new ones.—See V. 69, p. 385.

All bonds are for $1,000 each, and interest is payable at Farmers Loan & Trust Company, New York.

Capital stock—The capital stock is $20,000,000, of which $17,000,000 is common stock and $3,000,000 is 7 per cent cumulative preferred stock on which interest is payable quarterly. In Feb., 1899, $750,000 additional preferred stock, issued in payment of loan for that amount, was listed on the N. Y. Stock Exchange, with authority to list up to $3,000,000 when issued in exchange for St. Paul Ry. deb. 6s. The debentures are to be sold or exchanged for preferred stock at not exceeding 7½ shares of preferred for each $1,000 debenture bond. —V. 68, p. 381. On August 1, 1899, amounts of preferred stock and debentures were as above.

For the preferred stock it is provided that if in any year dividends amounting to 7 per cent are not paid on said stock, the deficiency shall be a charge upon the net earnings of the company, and shall be paid subsequently before any dividend shall be paid upon or set apart for the common stock. In case of liquidation or dissolution of the company the holders of the preferred stock shall have prior right on the assets of the company before any amounts shall be payable to the holders of the common stock.

Dividends—All dividends on preferred to and including July, 1899 (1¾ per cent), have been paid. One per cent was paid on the common stock in August, 1899.

See full description of property in application to the New York Stock Exchange in June, 1895.—V. 60, p. 1148.

Bonds.—The *Minneapolis Street Railway* Co. jointly and severally with the Minneapolis Lyndale & Minnetonka Railway Co. has issued $5,000,000 5 per cent 30-year first mortgage and first consolidated mortgage gold bonds, of which $890,000 are held in trust by the Farmers' Loan & Trust Company to redeem the $890,000 prior lien bonds. See statement to N. Y. Stock Exchange in June, 1895. The consols are also listed in London.—V. 60, p. 1149.

The *St. Paul City Railway* Company has issued $4,388,000 5 per cent 50-year *cable consolidated bonds* (including $680,000 held by the Farmers' Loan & Trust Company, trustee, to redeem the $680,000 prior lien bonds above) under a mortgage limited to $5,500,000. Under the mortgage these bonds can only be issued against the actual cash cost of construction, under a mileage limit of $15,000 per mile. Part of these consols ($1,138,000 on June 11, 1895), are guaranteed, principal and interest, by endorsement of Twin City R. T. Co. See statement to N. Y. Stock Exchange in June, 1895.—V. 60, p, 1150.

ROAD—The entire system consists of 240 miles of standard-gauge road, all recently built or rebuilt, and thoroughly equipped. Two double-track electric lines, 9 miles long, connect the business centres of the two cities.

On the principal streets of the cities 80-lb. rail with welded joints and imbedded in concrete was used.

A second inter-urban line was completed and began to be operated on July 1, 1898, affording direct communication with Como Park and the State fair grounds. V. 68, p, 522.

GENERAL FINANCES—In 1898 the $750,000 loan due Dec. 31, 1900, was paid off, partly by the issue of preferred stock. V. 68, p. 381, 522. On Jan. 1, 1899, bills payable outstanding were $110,000.

The company leases water power at St. Anthony's Falls (capacity 10,000 h. p.), which power is now used to run the entire railway system in both cities.—see V. 64, p. 704.

METROPOLITAN STREET RAILWAY—

Cable, underground trolley, horse.

ORGANIZATION—Chartered in 1893, and by consolidation, lease and otherwise has acquired control of practically all the street railways of Manhattan Island except the Manhattan Elevated and the Third Avenue RR.—(see V. 65, p. 621.) An agreement with Third Ave. RR. as to Kingsbridge road and Amsterdam Ave., etc., was reached in November, 1897.—V. 65, p. 977. In August, 1899, franchise was granted.—V. 69, p. 334.

The Metropolitan Street Ry. has absorbed by consolidation the following companies, embracing the "lines owned."

IN 1893—	IN 1894 AND 1895—
Houst. West St. & Pavonia Ferry.	Metropolitan Crosstown.
Chambers St. & Grand St. Ferry.	Lexington Ave. & Pav. Ferry (Cable).
Broadway Railway.	Columbus & 9th Ave. RR. (Cable).
South Ferry RR.	

In addition the companies shown in the table of mileage as "leased etc.," have been acquired from time to time by lease or stock ownership. The latest acquisitions are: In July, 1896, the New York & Harlem RR.; in 1897 the Central Crosstown (including Christopher and 10th Street) and Second Avenue. The miles of track operated has thus been increased as follows: From 80 in 1893 to 131 in 1894, to 140 in 1895, to 172 in 1896, to 230 in 1897.

Rapid Transit Road.—In March, 1899, the Metropolitan Railway syndicate made a proposition to the Rapid Transit Commission to build the proposed tunnel road (V. 68, p. 619), but in April, 1899 (V. 68, p. 774), withdrew its proposal on account of adverse criticism.

New Electric Lines.—The company in May, 1899, was using its underground electric system on Eighth Avenue line from 158th to Battery Place over the entire Fourth Avenue line; over the greater portion of the Second Ave. line, and over the Sixth Ave. line via 59th Street and Amsterdam Ave. The Broadway cable also was being prepared for operation with the same motive system.—V. 66, p. 337, 520, 616; V. 67, p. 530, 736, 956.

In August, 1899, began to run air-power cars exclusively over the Twenty-eighth Street and Twenty-ninth Street lines and was expected shortly to run them over the other cross-town lines.

As to the relative earning capacity of the horse, cable and underground electric lines of the system see President Vreeland's statement in V. 67, p. 956.

The New York Gas & Electric Light, Heat & Power Co., incorporated in Nov., 1898, with capital of $25,000,000, will distribute to the public, together with its own current, the surplus current of the Metropolitan St. Ry.—V. 67, p. 1263. The Metropolitan St. Ry. is largely interested in the International and American Air Power Co.—V. 68, p. 130.

Interest at Guaranty Trust Co. of New York.

Of the *consol. mort.* of 1893, for $12,500,000, $4,850,000 is reserved to retire at maturity the other bonds in the table. The outstanding consols paid for laying the Broadway cable. The consols are guaranteed, principal and interest, under the terms of the mortgage by the Metropolitan Street Railway Co., which now owns the Broadway line south of 15th Street. They cover the road owned in fee, also the right to use the tracks on Broadway from 15th Street to the Battery; they are also a direct lien on the cable, etc. Trustee, Guaranty Trust Co.

The Broadway & 7th Avenue assumed the *Broadway Surface* 1st mortgage bonds for $1,125,000 and payment of interest on the second mortgage bonds for $1,000,000, for use of tracks between 15th Street and ferry. *South Ferry* 5s. assumed under lease.

THIRD AVENUE RAILROAD—A cable railroad.

ORGANIZATION.—Chartered Oct. 8, 1853. A cable road since Dec. 5, 1893. In Nov., 1895, purchased control of the 42d Street Manhattanville & St. Nicholas Ave. line. See V. 61, p. 872, 926. Control of Dry Dock E. B. & B. was obtained Aug. 23, 1897. (V. 65, p. 194). In January, 1898, a majority of the stock of Union Ry, N. Y., was purchased.—V. 66, p. 135. In Sept., 1898, Union Ry purchased Yonkers RR. V. 67, p. 635. In April, 1899, the Tarrytown White Plains & Mamaroneck Ry. was acquired by the Union Railway.—V. 68, p. 674.

In Dec., 1898, the contract for the electrical equipment of the lines was let, involving the expenditure of about $5,000,000, and work on reconstruction of the road had begun.—V. 67, p. 1264.

A traffic agreement, which went into effect April 29, 1899, has been entered into between the Manhattan Elevated and the Third Avenue Railroad system [comprising the Third Avenue RR., the Dry Dock East Broadway & Battery, the 42d St., Manhattanville & St. Nicholas Avenue RR. and the Union Railway lines], providing for an extensive scheme of transfers at cross-town junctions, and also at the terminal points of the two systems. The transfers are granted for an additional fare of 3 cents, making the cost of the entire journey 8 cents. For the latter sum a passenger can thus ride from the City Hall and South Ferry to Yonkers, New Rochelle and Mt. Vernon.—V. 68, p. 672, 872.

STOCK—In October, 1898, $2,000,000 new stock was issued, making total $12,000,000 stock outstanding. The proceeds "were to be used for the purpose of providing funds to change the cable system to the underground electrical system upon the Third Avenue, 125th Street and Tenth Avenue lines." This new stock was offered to stockholders at par. In July stockholders voted to increase stock from $12,000,000 to $40,000,000. The stock is to be issued as required to pay for improvements and to extinguish the floating debt, which on June 30, 1899, amounted to 13⅓ million dollars.—V. 69, p. 29, 182.

(3) UNION RAILWAY OF NEW YORK—A trolley road.

ORGANIZATION—Operates from 129th St. and 3d Ave. through the Borough of the Bronx, and with subsidiary lines, continuing thence to and through Mt. Vernon. Extensions projected from New Rochelle, through Larchmont, Mamaroneck, Harrison, Rye and Portchester to the Connecticut line.

THIRD AVENUE RR. IN CONTROL.—Controlled by Third Ave. R.R., which in Jan., 1898, purchased a majority of the stock.—V. 66, p. 135. In Sept., 1898, the Union Ry. purchased Yonkers RR, and will guarantee its $1,000,000 bonds, this guaranty being accepted by the Third Ave. V. 67, p. 635.

In April, 1899, arranged to extend its 161st Street line to the terminus of the Manhattan Elevated at 155th Street and Eighth Avenue, and also an extension to connect with the Fort George line on Tenth Avenue, this being a feature of the system of transfers inaugurated between the Third Avenue RR. and the Elevated.

PEOPLE'S TRACTION CO.—To be a trolley road.

ORGANIZATION—A consolidation in February, 1898, of the People's Traction and N. Y. Westchester & Connecticut Traction. About 68 miles of road are projected. Under its franchise the old People's Company connects with Manhattan Island by proposed bridges over the Harlem. It parallels the Harlem between 134th and 172d streets, and its lines touch the Bronx River at Lafayette Avenue, West Farms Road and Bronx Park. The Westchester & Connecticut has a route from Lafayette Avenue through Bartow to the city line, and from Bronx Park along the Boston Road to the same boundary.

In July, 1898, purchased the North Mount Vernon Ry., built in 1896, extending over Chester Hill from North Third Avenue, 1½ miles, and proposed at once to convert it into a trolley road and endeavor to secure additional franchises in Mount Vernon and extend the Chester Hill line to White Plains and Bronxville. Franchises obtained for the proposed extension were revoked by the Mt. Vernon authorities in Jan., 1899, but the company on Jan. 28, 1899, filed a certificate of its intention to construct the lines. In April, 1899, the Mount Vernon Board of Aldermen granted a fifty-year franchise.

STOCK—The combined stock of the old companies was $2,100,000.

OFFICERS—President, W. A. Boland; Vice-President, Silas B. Dutcher: Secretary and Treasurer, Frederick C. Cocheu. Among the new directors are P. H. Flynn, W. A. Boland, John McCarthy, Silas B. Dutcher, F. C. Cocheu, Joseph White and M. J. Kennedy.—V. 63, p. 969

WALL & CORTLANDT ST. FERRIES RY.—Successor to the Fulton Wall & Cortlandt Street Ferries RR. sold under foreclosure on Aug. 25, 1898. V. 67, p. 428, 488. Projected from Fulton and from Wall St. ferries, East River, to Cortlandt and to Liberty St. ferries, North River, 2·7 miles. Stock, $1,000,000; par, $100; all issued. Bonds, $1,000,000, have been authorized and issued. Directors; F. D. Moffat, E. F. Moffat, Charles Buse, K. S. Hogg, E. L. Conant, H. W. Thayer, H. W. Bean, M. E. Gill and J. P. Sheffield.—V. 65, p. 1173; V. 67, p. 428, 488.

Trust certificates were issued by Pa. Co. for Ins., etc., and are secured by pledge of People's Passenger Ry. stock (see that company above), and by contract of People's Traction Co., which guarantees principal and interest. Issue limited to $1,000 for $14\frac{2}{7}$ shares deposited, making total authorized $5,810,000. Sinking fund $25,000 yearly, beginning Feb. 1, 1903.

To distribute surplus from past operations, in August, 1896, was declared a dividend of 4½ per cent per annum.

(12) PHILADELPHIA CITY PASSENGER RY.—A trolley road.

ORGANIZATION—Incorporated April 9, 1859. Leased to West Philadelphia Passenger Railway Company for 900 years from Jan. 1, 1884, for interest on bonds, $2,500 per year for organization and dividend of $7 50 per share. Transferred under lease of Philadelphia Traction Co. Oct. 1, 1895, to the Union Traction Co.

(15) PHILADELPHIA TRACTION—A trolley road.

ORGANIZATION—Incorporated August 21, 1883, and secured control of an extensive system of roads in Philadelphia, Pa. (about 210 miles of track), which it held either by lease or ownership of securities, not in fee. Under the lease to the Union Traction Company dated October 1, 1895, all the leases and the securities owned were assigned to the Union Company, which assumes all liabilities for rentals, etc.

CONSOLIDATION—The lease to Union Traction Co. is for 999 years from Oct., 1895. The lease provides for dividends of $4 (8 p. c.) per annum on each $50 share, payable in gold coin, free of taxes. The collateral trust 4s are "assumed" by the Union Traction. See V. 61, p. 663, for extracts from lease. Philadelphia Traction stockholders were allowed to subscribe for new Union Traction stock. See V. 61, p. 197, and also "Union Traction" Co. this SUPPLEMENT

PROVIDENCE, R. I.

POPULATION 1890 WAS 132,043; IN 1880 WAS 104,856 AND IN 1870 WAS 68,904.

PROVIDENCE-PAWTUCKET-PAWTUXET VALLEY, R. I.—UNITED TRACTION & ELECTRIC.

ORGANIZATION—Controls by ownership of stock and bonds the entire street railway system of the city of Providence and of the towns of North Providence, East Providence, Cranston and Johnston, and al the street railways of the cities of Pawtucket, Central Falls (except the Inter-State Consolidated) and towns of Lincoln and Cumberland, serving, it is said, a population of about 250,000. In addition to the above the United Traction & Electric Co. controls by ownership of stock and bonds the street railway system in the Pawtuxet Valley located in the towns of Warwick, Coventry, Cranston and Scituate, serving at present a population of nearly 20,000, and also an electric-light plant serving to a considerable extent the same population. The securities by which this ownership is held are deposited to secure the bonds below described. The United Traction & Electric Co. was chartered in New Jersey to build and equip railroads, sell bonds, mortgages, etc.

	Interest payable at Central Tr., N. Y., Trustee.			

Dividends—In July, 1897, the first dividend was paid, being ½ p. c.; Oct., ½ p.c.; in 1898, Jan., ¾ p. c.; April, ¾ p. c.; July, ¾ p. c.; Oct. ¾ p.c.; in 1899, Jan., ¾ p. c.; April, 1 p. c.; July 1 p. c.

Bonds—Total issue limited to $8,000,000, with provisions for increasing the issue by not over $1,000,000 for actual cost of new track (including equipment) within 18 miles of the City Hall of Providence, R. I., and additional to 104 miles of track, but at a rate not exceeding $12,000 per mile of such new track. Under this provision $247,000 of bonds were issued in 1895 against new mileage. The bonds are secured by mortgage on all the mortgage bonds and all the stock of the Union Ry. Co. of Providence and all the stock of the Pawtucket Street Ry. Co.

The Providence Cable Tramway Co. is leased to the Union Railway Co. for 50 years for 6 per cent on its capital stock, all but two shares of which is owned by the Union Railway Co.

ROAD.—In July, 1899, there were completed and in operation 146·9 miles, which include 11·1 miles of Pawtuxet Val. El. St. Ry.

In May, 1899, the Union RR. of Providence bought from the New York New Haven & Hartford its Warwick & Oakland Beach or Buttonwoods branch, and this is to be changed from a steam to an electric road. Contract goes into effect next January it is stated.—V. 68, p. 1027.

SECURITIES PLEDGED.—The securities pledged include all of the $8,700,000 capital stock of the *Union RR.* of Providence, all of the $500,000 capital stock of the *Pawtucket Street Ry.* (no bonds) and all of the $3,000,000 first mortgage bonds of the *Union RR.* of Providence. The Union RR. owns $299,800 of the $300,000 capital stock of the *Providence Cable Tramway Co.* (no bonds)

TREASURY SECURITIES—The United Traction & Electric Co. has in its treasury $361,800 of the $400,000 capital stock and $150,800 of the $198,000 first mortgage bonds of the Pawtuxet Valley Electric Ry.

All the above-described roads of the United Traction & Electric Co., including the Providence Cable Tramway, are now operated by electricity, and since completion of the electrical equipment in April, 1894, the large increase in the earnings anticipated has been fully realized.

UNITED RAILWAYS COMPANY OF ST. LOUIS—*(See Map, p. 81).*

ORGANIZATION.—This was formerly the Central Traction Company' a corporation chartered under the laws of Missouri, but name changed to United Railways Company of St. Louis. Has arranged to acquire all the street car lines in operation in St. Louis with the exception of the St. Louis & Suburban system. The combination has been arranged by a syndicate headed by Messrs. Brown Brothers & Co., New York. See plan in V. 69, p. 231. The company on April 12, 1898, received a fifty-year franchise from the City of St. Louis authorizing it to build 79½ miles of street railroad on several of the most important streets of the city, and also giving permission to acquire by lease or purchase any other street railroad in that city. Under authority thus conferred, the following properties have been absorbed. We give both the amount of stock acquired and the amount not acquired.

Road Absorbed.	*Amount of Stock Acquired.*	*Stock not Acquired.*
Lindell Railway Co	23,540 shares.	460 shares.
Missouri RR. Co	Entire issue.	None
National Railway Co	24,731 shares.	64 shares.
St. Louis Traction Co	Entire issue.	None.
Southern Electric Ry. Co., common	4,891 shares.	109 shares.
Do do do preferred.	9,860 "	140 "
Union Depot RR. Co	Entire issue.	None

As under the laws of Missouri the United Railways Company has the power to purchase all the property and franchises of any other street railway with which it connects, or intersects, on obtaining the approval of two-thirds of the stockholders, ownership of the above stocks will be followed by actual deeds of the properties of the various constituent companies.

LEASE—All the lines of railway of the United Railways Company are to be leased to the St. Louis Transit Co., which see.

ROAD.—The mileage of the combined system will be as follows:

	Miles.		*Miles.*
Missouri RR. System (elec.)	16·61	St. Louis Traction Co. (cable)	9·50

* Including county roads.

STOCK AND BONDS—For the purpose of acquiring the properties and franchises or the shares of stock of the above-named companies and providing for the present mortgage debts, the United Railways Co. of St. Louis will issue the following securities.

General First Mortgage 4 per cent 35-year gold bonds	$45,000,000
Of which reserved for future betterments, improvements and acquisitions (including minority stock of St. Louis RR. Co. not now owned in the National Railway System, and also the $3,000,000 bonds in the St. Louis & Suburban System)	8,000,000
Reserved for underlying liens	14,000,000
To be paid over to the stockholders of the several constituent street railway companies	23,000,000
Preferred Stock, 5 per cent cumulative	$20,000,000
Of which reserved for future acquirements, expenses of consolidation, betterments and improvements	8,435,000
To be issued to the stockholders of the several constituent companies	11,565,00
Common Stock	$25,000,000
Of which reserved for future acquirements, betterments and improvements	7,652,500
To be issued to the stockholders of the several constituent companies	17,347,500

The St. Louis & Suburban system alone of the street car lines in St. Louis has not been acquired; $3,000,000 of the new 4s, however, will be reserved for the sole purpose of retiring its bonds in case its purchase should at any time be thought desirable. The 4 per cent loan is to be secured by all the stocks of the constituent companies, or by direct mortgage lien upon their property and franchises in so far a purchased.

Lease Guaranty.—The St. Louis Transit Co., besides leasing all the lines of railway of the United Railways Co. of St. Louis, is to guarantee the payment of interest upon all the new 4s as well as on the bonds of the constituent companies, and also 5 per cent, payable semi-annually, upon the preferred stock of the United Company.

Exchange of Stock.—The St. Louis Transit Co. is to exchange its stock for the common stock of the United Railways Company of St Louis, share for share, upon payment to it by the stockholders of the United Railways Co. of $11 per share. This will give the Transit Co. a cash capital of $1,908,225 free from all obligations except those under its lease.
